VICTORIA, B. C., THURSDAY, JULY 4, 1907

No 21

BUY DIAMONDS

BUY Diamonds! because they are the best investment in the world. Your invested capital will increase in value and during this increase you have the pleasure of wearing gems beautiful beyond comparison. The output of the diamond mines is decreasing; the demand for diamonds is increasing; prices are bound to go higher. Why not take the opportunity of making your purchases now from the stock which we had the forethought to purchase before the rise, and which we can still sell to you at prices less than market values.

WIRELESS DIFFICULTY ON ST. LAWRENCE SYSTEM

Friction Between Government and Company Felt There Also

TRIP OF RAILWAY COMMISSION

Canadian Wheat and Flour on the Japanese Market—New Conservative Paper

Ottawa, July 3.—Commissioner Gupta, of the India civil service, is here investigating the organization of the fisheries service, with a view to the establishment of similar branch in India.

The Marconi system on the lower St. Lawrence has broken down. The stations are not working owing to the friction between the company and the officers of the department.

Messrs. Killam and Mills, railway commissioners, leave for the west on Saturday to hold sittings from Winnipeg to the coast.

The labor department reports 287 industrial accidents during May.

Mr. Maclean, agent for Canada in Japan, in a report to the department of trade and commerce, expresses regret that Canadian wheat and flour are not finding a remunerative market. Japan's imports of news prints are steadily increasing.

The Conservative party in New Brunswick is to have a new morning newspaper, to be called the Standard. It will be published in St. John.

In reference to the Associated Press dispatch stating that steamers were being chartered to carry 2,000 Japanese each from Honolulu, Consul General Noyes stated that he had not received any such large party of Japanese in Canada. He doubted very much the correctness of the dispatch. The immigration authorities are also unaware of any such large immigration of Japanese.

Industrial War in Italy

Palermo, July 3.—A big industrial war has broken out here, and 15,000 men stopped work. The town is occupied by troops, and there have been many conflicts. Yesterday the carabinieri had to chase a crowd with drawn sabres. Many arrests have been made.

Schmitz to Run Again

San Francisco, July 3.—Mayor E. Schmitz, who is awaiting sentence under conviction of extortion, stated that he will again be a candidate for election for a fourth term, and he has begun already the preliminary work of campaigning. Another announcement by the mayor is that he will bring mandamus proceedings against Judge Dunne if his sentence is not forthcoming on Monday, as promised. Until judgment is passed the mayor cannot carry his appeal to the higher courts.

PARKS BOARD IS CALLED TO MEET THIS AFTERNOON

Boulevard and Regulation Committee Will Present Report and Other Business Will Come Up.

The parks board held a session this afternoon at which a number of matters of business will be up for discussion. The boulevard committee held a meeting yesterday and will render a report at the meeting today. Only two members of the committee were present, Messrs. C. McKerson and Vincent with City Engineer Topp. The various streets to be boulevardized and the manner in which this was to be done came up for discussion but little was decided.

The committee to draft regulations will introduce to the board of the by-law which has been prepared. Mayor Morley having posted a notice to that effect. The regulations appeared in the Colonist yesterday.

The settlement of the Sunday band concert problem will also be effected.

Chinese From Transvaal

Durban, July 3.—1,348 repatriated Chinese laborers sailed from here yesterday for home.

Horses in Collision

Calgary July 3.—Two saddle horses were killed by colliding head on while warming up on the track at the races here yesterday. The jockeys escaped serious injury.

Canals of Mars

Cambridge, Mass., July 3.—The Lowell expedition to the Andes has succeeded in photographing the canals of Mars, according to a telegram received at Harvard observatory from Professor Percival Lowell, director of the Lowell observatory, at Flagstaff, Arizona.

Western Union Statement.

New York, July 3.—President Clowery, of the Western Union, today sent the following message to the general superintendents of the company at New York, Chicago, Atlanta and San Francisco: "There is no truth in the rumors being circulated throughout the country that the Western Union Telegraph Company has receded from the position taken in my letter of June 20th, to the Hon. Chas. H. Neill, commissioner of labor. I had another meeting with Commissioner Neill last Monday afternoon, and assured him that notwithstanding the unwarranted action in calling a strike at San Francisco the company would carry out the conditions set forth in that statement of good faith."

MONTREAL DOCK WORK

Shippers and Longshoremen Accepting Board's Award

Montreal, July 3.—Notice issued by the shipping federation to all longshoremen that the shippers were prepared to accept the award of the board of arbitration has met with a good response by the men, who were asked to sign their proposal. Over 400 did so yesterday, which is about one third of the whole, and by today the shippers expect to have a good working majority, if not more.

The longshoremen's union has declined to accept the award, and has so notified the federal authorities, but the fact that so many have signed in the first day seems to bear out the contentions of the shippers that the union does not control the men as much as has been supposed.

By the terms of the award the men get a bonus of 2 1-2 cents an hour, to be paid at the close of the season. The objects of this is to keep the men on till the last ship sails. Then next year the regular 30 cents an hour will be effective, which will also be the rate this year for all those who qualify for the bonus. Besides the bonus all the longshoremen have already been advanced in pay 2 1-2 cents an hour as a preliminary object to returning to work. The shippers last night expressed their satisfaction with the course of the officers. Even if the majority of the men do not sign the agreement no trouble is expected this year.

CAUGHT IN A SHAFT

Alexander Abercrombie of Vancouver Fatally Injured

Vancouver, July 3.—Alexander Abercrombie is dying at the General hospital as the result of injuries received at the Royal City Mills this morning. He was fixing a belt on a pulley when his clothing was caught by a shaft, and before the machinery could be stopped he was whirled round and round bodily and his face and head dashed against overhead beams. It was found that one part of his skull was shattered into fragments. He is still living, but death is expected at any moment. He was a millwright by trade, and leaves a wife and family.

RAISULI SURPASSES ALL FORMER EXPLOITS

Captures Kaid Maclean, Scottish Commander of Sultan's Forces

Tangier, July 3.—The British legation here confirms the announcement that Gen. Maclean has been captured by Raisuli.

Sultan is arranging a punitive expedition against the Adra tribe of this vicinity, owing to the fact that they have not paid their tribute to his majesty's collectors. Raisuli says he will hold Gen. Maclean until he is granted the following terms for his surrender: First, the conquest of the Sultan's forces at Zennat. Second, the payment of an indemnity of 100,000 duros, or about \$200,000. Third, his reappointment as governor of Tangier, and of Fehs, and his appointment as commandant of police.

London, July 3.—The capture of Kaid Maclean, the virtual commander of the forces of the Sultan of Morocco, by Raisuli, is regarded here as a master stroke of the bandit whose successful career started with the seizure of Ian Pedicaris. Evidently Maclean was completely hoodwinked. Only yesterday he telegraphed to the sultan that Raisuli had agreed to all the former's propositions.

Giant Locomotives

Winnipeg, July 3.—The C. P. R. has decided to construct fifty giant locomotives exceeding in size any engine ever built in Canada heretofore, for use on the mountain divisions. They will have a drawing pull of 40,000 pounds, whereas the greatest tractive effort of the present locomotives is 31,000 pounds, which will move a train load of nine hundred tons.

Toronto Gets Drunk

Toronto, July 3.—There were 240 cases on the calendar on Tuesday in the police court, which stands as a record. The former record was 217. Sixty-five prisoners, a majority of whom were taken into custody on Monday, were brought up from the jail this morning. The cells in the city hall could scarcely accommodate the crowd.

Bravery Acknowledged.

Port Arthur, Ont., July 3.—At a special meeting of the Port Arthur Board of Trade John D. McCallum was presented with a bronze medal, suitably engraved, donated by the Royal Canadian Humane Society, also an address of commendation for his act of bravery in risking his life to save the passengers and crew of the ill-fated steamer Monarch, which was wrecked in Thunder Bay last December. Mr. McCallum took a line from the wrecked steamer to land, over which the passengers reached safety.

The Parole Officer.

Winnipeg, July 3.—The Dominion parole officer, W. P. Archibald, is in the city, having completed his annual inspection tour of the West, where he visited as a token of penitentiaries at Stony Mountain, Edmonton and New Westminster, with a view to ascertaining what prisoners were justified in asking for parole. He also visited many of the city and county jails, interviewing in all over two hundred prisoners who thought they were justified in asking for commutation of their sentences. Archibald left Ottawa on June 13th, and expects to be back July 16th.

Pittsburg has begun an anti-spitting crusade.

FITTING OF STEAMERS WITH WIRELESS DELAYED

Result of Dispute Stops Installation by Canadian Pacific

EXCLUSIVE RULES OF MARCONI

Situation of Uncertainty With Regard to Land Communications—the Caposun's Position.

There is a hitch regarding the installation of wireless telegraphic apparatus on board the Princess steamers of the C. P. R. steamship service on the British Columbia coast, and the work of pinning the apparatus on the steamers Princess Royal, Princess May, Princess Beatrice and also the Amur, which was to have been completed before this date, is delayed pending settlement. It seems that the Marconi Wireless Telegraph Company for the installation of Marconi apparatus on the steamers. It was believed when the contract was made that the government would establish Marconi stations on this coast. It is one of the regulations under which the Marconi Company that no communication may be held with stations other than those of the Marconi Company, and as the Canadian government has decided to establish Shoemaker stations on this coast the C. P. R. steamers if equipped with Marconi apparatus, could not be able to enter into communication. It is stated also that the Caposun on which Marconi apparatus is being installed while the steamer is on the ways of the Victoria Machinery Depot, will be unable to communicate with the government stations, unless permission to do so is obtained from the Marconi Company. The apparatus installed on steamers by the Marconi Company remains the property of the company and is leased to steamships with the proviso that communication may be maintained only with Marconi land stations. Whether the Canadian Company intends to establish its own land stations on this coast has not been stated. A story is told illustrative of the regulation that Marconi operators may communicate with Marconi stations on land or ship to the effect that while the Atlantic coast on board the Mayflower tried to enter communication with the Narragansett lightship, on which Marconi apparatus had been installed.

The operator on the Mayflower sent a signal again and again, and until a message was received in return. The operator on the lightship said he was very sorry, but the Mayflower was not equipped with Marconi apparatus and therefore he could not enter into communication.

FRUIT CULTURE PAYS WELL NEAR THE CITY

Experience of Young Englishman Shows How Success Can Be Attained by Those Willing to Work

A typical example of the success that is being achieved in the fruit growing line in the Victoria district is afforded by the experience of S. M. Lamb, a young Englishman who just a year ago bought a ranch consisting of 12 1/2 acres close to the pumping station and about 2 1-2 miles from the heart of the city. This year Mr. Lamb had 8 1-2 acres under cultivation, about one-third of an acre which was in strawberries from which he raised a ton and a half of as fine fruit as a man could ask for. Mr. Lamb yesterday showed to a reporter for the Colonist a box of unusually large berries of an exceptionally good flavor, especially for fruit of their size. Some of the berries were over an inch and a half in diameter, altogether too large for any one to negotiate in one bite. Mr. Lamb now has three acres set out in strawberry plants for next year, and has also planted 750 fruit trees. He has two acres more ready for cultivation next year and will get the balance of property in shape for cultivation with the least possible delay. As an example of the increase in value of the property, it may be said that while Mr. Lamb paid \$250 per acre for a year ago and only the other day \$1600 per acre was refused for the adjoining property, similar in every respect to his. From the third of an acre which he had in strawberries this year Mr. Lamb realized \$150, which is at the rate of three times the price he paid per acre for his ranch.

Sudden Death

Gooderich, Ont., July 3.—George Acheson, president of the Gooderich Lumber Company, died here suddenly today. He was a director of the Western Canada Flour Milling Company.

Deporting Chinese

Winnipeg, July 3.—A special train with one hundred Chinese from Montreal passed through the city last night at midnight, bound for Vancouver under heavy guard in order that they may be all deported back to their native land.

Toronto University Fellowships. Toronto, July 3.—The board of governors of the university having provided a third Alexander Mackenzie fellowship in political science for the session of 1907-1908, it was awarded yesterday by the council of the faculty of arts to H. H. Davis. The George Paxton Young memorial fellowship in philosophy was awarded at the same time to W. D. Brown.

UNITED VERDE COPPER.

Court Holds Treadwell Entitled to An Accounting.

New York, July 3.—Justice Amend, in the special term of the supreme court, has decided that William A. Treadwell is entitled to an accounting in the suit of the United Verde Copper company, which is controlled by per company, against the United Verde Copper company, a New York organization, for the purpose of re-organization under the laws of West Virginia, has been declared illegal by the appellate division of the supreme court, and Mr. Treadwell asked for the granting of an injunction and an accounting. Justice Amend decided that the appointment of a receiver and the granting of an injunction would needlessly tie up the defendant's operations, with no corresponding advantage to Mr. Treadwell, who the court holds, would be compensated in money damages. He says that the charges of mismanagement of the corporation have not been sustained. Treadwell owned 73 shares of the capital stock of the United Verde Copper company, and opposed the sale of the property and its re-organization.

ONE OF ORCHARD'S TALES.

Contradiction Comes From Colorado Sheriff.

Pueblo, Colo., July 3.—Former Sheriff J. L. Beeman last night said that Harry Orchard had no connection with the Cripple Creek train, as Orchard has testified. He said that while he was sheriff the Teller county authorities brought to Pueblo a man named Charles Beckman, an employee of a detective agency. Beckman was accused of the attempted train wrecking in hopes of getting a confession from him. Before going to jail on this mission, Beckman says, he related a story of his experiences. He related a story of a detective and a member of the Western Federation of Miners' "inner circle." The inner circle, Beckman asserted, designated him and several others to wreck the train. "We reported to Scott, Beeman said, special agent for the mine owners, and they went to the scene of the proposed wreck, where they saw the men pull the spikes from the rails."

EARTH WAS SHAKEN AT DISTANT POINTS

Shocks Registered at Ottawa Observatory—Tremors Felt in European Towns

Ottawa July 3.—An earthquake was reported at the Dominion observatory here yesterday morning. The preliminary shocks arrived at 8:15-48, and the principal shock began at 8:21:14, the record being more pronounced than that for Kingston, Jamaica. From the seismograph it appeared that the earthquake took place some 3000 miles distant, north of the Bahamas.

Wolsey, Eng., July 3.—A slight earthquake was experienced here at noon yesterday. Rome, July 3.—Slight earthquake shocks were felt yesterday at Tolmezzo, San Diele, and Amar, near Udine, capital of the province of that name. Tolmezzo is in the Alps, 1000 feet above the sea.

London, Eng., July 3.—A report from the observatory at Innsbruck, Austria, says the oscillations began at 6:30 yesterday afternoon and lasted for 2 hours and 18 minutes.

PRAIRIE CITY LOTS.

A Warning to Easterners Who Are Invited to Buy.

Toronto, July 3.—The Telegram says editorially: "A lightning calculator estimated that Saskatoon would have a population of 200,000 if it had three people settled on each of the city lots that have been sold since the boom started. Nor is Saskatoon the only or indeed the worst case over-prod of city lots. Regina is just as bad. The city is true of other western cities. These communities are not wholly responsible for the use which is being made of their names by exploiters who are looking for the money of 'eastern tenderloins' has a future; Regina is a wonder city for its age."

"Property in the central districts of all these western communities is an investment. It is central property that is being worked off on city dupes with the help of page advertisements."

"Perhaps so; also perhaps not. Let Ontario investors see to it that they are not paying city lot prices for chunks of prairie remote from the business haunts of men."

Teacher From Ontario.

Regina, July 3.—The public school board has engaged Duncan Brown, of Ontario, to be principal of the Victoria school.

A California Flood

Bakersfield, Cal., July 3.—Buena Vista lake, once broken, flooding 30,000 acres of land belonging to Miller and Lux and the Levee Lake company, and causing \$10,000,000 damage. The Sunset Railway has been put out of commission and the oil fields are cut off from communication with this city.

Heavy Defalcation

New York, July 3.—Detectives throughout the U. S. are searching today for Chester B. Runyan, paying clerk of the Windsor Trust Company, who the directors allege is missing with \$96,317 in cash. The case is being handled by private detectives. The company confirms the report of the defalcation, which the detectives say is one of the most remarkable ever reported. Runyan is accused of having placed \$96,317 in currency in a suit case last Saturday and left the city.

PROPOSALS OF POWERS BEFORE PEACE CONFERENCE

Suggestion as to Protection of Private Property Not Well Received

STATUS OF TELEGRAPH SYSTEM

Bombardment of Towns for Refusing to Pay Ransom—An American Peace Petition.

The Hague, July 3.—The opposition to the American proposition before the peace conference on the inviolability of private property at sea is increasing. It now seems that Russia and France are not even in favor of the Italian amendment, suggesting that belligerents be allowed to capture private property at sea, but that such property be returned after the war, and owners to be paid indemnity for damages sustained.

Japan is preparing a proposition regarding the use of wireless telegraphy based on her experience during the Russo-Japanese war, while other powers are desirous of proposing that submarine cables be classed as neutral property. The Japanese have not presented any proposition regarding the bombardment of towns, but have asked the Americans, who in their proposition desire to prohibit bombardment of towns for not paying ransoms, to propose the abolition of the payment of ransoms in order to escape bombardment.

Miss Anna Eckstein has requested an audience of President Neldorff in order to present a petition signed by over 2,000,000 Americans, in favor of a general arbitration treaty. Neldorff will receive Miss Eckstein tomorrow morning.

For the Fourth.

Winnipeg, July 3.—The American association is preparing to celebrate the glorious Fourth tomorrow at Portage la Prairie with real American enthusiasm.

Mentally Deranged.

Winnipeg, July 3.—The man who suicided in Central Park yesterday has been identified as Israel Scott, a wealthy farmer of Elgin, Man. He had been mentally deranged.

Christianity in Korea

Seoul, July 3.—Protestant Christianity in Korea has increased over sixty per cent. in the past year, and there is promise of a national evangelisation under the auspices of the American missionaries. Catholicism apparently is stationary.

Canada and France

London, July 3.—Sir Wilfrid Laurier interviewed by Le Journal, Paris, stated on the question of a Franco-Canadian treaty. "England has given Canada her independence as regards such matters, and grants its signature without difficulty."

Killed by Dynamite.

Danbury, Conn., July 3.—Three Italian laborers were brought here from Brewster, N. Y., today for hospital treatment. Inquiry shows that a steam shovel at the new reservoir caught a stick of dynamite, and the explosion killed two men and injured five others. The men killed are Melis Metikos and Sita Calcon.

Released From Penitentiary.

Kingston, Ont., July 3.—In 1885 Alexander Gillis was convicted in Nova Scotia of killing a man with a rolling pin. He was sentenced to death, and this was commuted to life imprisonment. Yesterday he was set free by the penitentiary authorities, as he had been pardoned. For nine years he was in a New Brunswick institution and for 13 years in Kingston. He was a model prisoner, and his career showed that he was not a criminal at heart. He never lost hope of getting his freedom and redemption. He sought for release, but found his path thwarted. Hon. Mr. Aylesworth looked up the facts and decided to pardon Gillis, who left for the United States. His family lives on Prince Edward Island.

TRANS-CANADA TRAIN SERVICE INAUGURATED

Flier Pulled Out from Vancouver
Depot on Tuesday After-
noon

TO MONTREAL IN EIGHTY-FIVE HOURS

Faster Regular Service Which Has
Ever Been Instituted for the
Same Distance

Vancouver, June 2.—The first Trans-Canada Limited flier to leave Vancouver for Montreal, pulled out from the C. P. R. depot at 4:30 o'clock this afternoon. The train consisted of a baggage car, the diner Yodogawa which came across the continent attached to the train of Prince Rupert, and two sleeping cars, the Caradoc and Comox.

This train service calls for departures and arrivals at weekly intervals, and the time made between Vancouver and Montreal will be eighty-five hours—the fastest regular service ever instituted for the same distance on the continent. The first express from Montreal is scheduled to arrive in Vancouver at 6:30 o'clock next Saturday morning. Including the Trans-Canada Limited three transcontinental trains left Vancouver today.

The Spokane-St. Paul fast service of the C. P. R. was instituted yesterday from both terminals. This service is furnished via the Soo and Spokane & International lines.

A DETERMINED SUICIDE

Sad Fate of Joe Lerone, Victim of
Persistent Hardships

Vancouver, July 3.—Behind the discovery of a body in a shallow pool in Stanley Park on Saturday by a workman engaged in slashing a new trail, there is a story of dogged ill-luck and a grim determination of a despondent man to end it all in death. By an address discovered on the remains the body has been identified as that of Joe Lerone, well known in Vancouver as the victim of persistent hardships that finally caused the man to take his own life.

About four years ago Joe Lerone disappeared from the Rock Bay logging camp up the coast, and nothing was heard of him for many weeks. Then he turned up at a logging camp up the coast, and then, while prospecting he lost his bearings and without food, save an occasional porcupine which he killed and sucked the blood from, he wandered about for forty days. He was brought back to Vancouver and placed in the hospital and after a few weeks recovered.

His next venture that turned out disastrously was at Rock Bay. He had been employed but a few days when the tackle on some logging machinery broke and crashed down on the unfortunate Lerone, breaking both of his legs. Once more he was brought down to Vancouver and placed under medical care. One of his legs had to be amputated below the knee and Lerone became so despondent that he twice attempted to take his life. For a considerable time he was a familiar figure with his crutches, then his funds began to run low. One morning he told his friends he was going to leave Vancouver and return to his home at Calumet, Ontario, and disappeared.

On Saturday, the workman who was slashing a new trail from Coal Harbor to the big trees saw a crutch inside a hollow trunk. Lighting a match he discovered the dead body of Lerone. The unfortunate cripple must have scrambled over half-a-mile of fallen timber before he found a place he thought suitable for his act. With arms outstretched and crutches laid neatly on each side, the man had evidently prepared himself for death. Three bottles of poison and an open razor lay near him, but which means Lerone used to end his existence will never be known. Protected by the tree-trunk against the weather the body had literally turned to dust, no trace of flesh remaining. Only the crutches, the maimed body and the address carefully hidden in an inside pocket of his coat, gave up what the despondent man evidently intended to be a secret from the world which had used him so cruelly. Four times after leaving the hospital Lerone had attempted suicide but without success.

A PATHETIC LETTER

Vancouver, July 2.—A sad letter comes from the little town of Petoskey, Mich., to Colin Campbell, chief of the provincial police, a mourning mother seeking the effects of her son, Nicholas Selbert. He was drowned in the Cheakamus River, in the Squamish Valley, on May 7, the day he had started to work as a logger. He had previously engaged in the Western Corporation Company's camps, in North Vancouver. The mother enclosed in the letter a piece of the coat she had made for him when he left Petoskey. She seeks the coat and his other effects, which Chief Campbell is endeavoring to find. The body of young Selbert was never recovered, although twenty men in the camp dragged the river for two days and two imperiled their lives in the effort to find it.

ESCAPED CONVICT CAPTURED

Joseph Demars Makes Break For Liberty from the Penitentiary

New Westminster, July 2.—Joseph Demars, a convict from the British Columbia penitentiary, escaped Saturday from the convict colony at Wright Island in Pitt Lake, but was recaptured yesterday after an exciting chase.

Demars was taken over to the mainland shore of the lake with several other convicts to do some work, and when the guard's attention was taken up with the task, Demars slipped into

the woods and escaped. His absence was soon noticed and the men were returned to the colony.

Deputy Warden Bourke called in all the guards and organized a search, men being sent to different points. Demars was finally recaptured by Guards Devine and Doyle near Port Haney yesterday afternoon. To get there he had to scale the Pitt Lake Mountains. The prisoner told his keepers that he had had nothing to eat since his escape, and that during that time he had swam a lake, forded several sloughs and was almost exhausted.

Dangerous Bush Fires

Vancouver, July 2.—A bush fire which is reported to be rapidly assuming proportions which threaten the destruction of a bridge across the Capilano river and a stretch of the shingle belt flume broke out yesterday below the canyon on the river. The fire is supposed to have been started by some campers. During the day it spread considerably and this morning was reported to Fire Warden McKay.

New Coal Mine Opened

Enderby, B. C., July 2.—The business of coal mining in the interior is about to be extended to the Okanagan Valley, as the Enderby Coal Mines Company, Ltd., has exploited eight thousand acres of coal lands which holds, the coal measures having been proved by boring and drill. Local conditions, however, has been located, which is stated to be forty feet in thickness and of good quality. The property is not far from the town of Enderby, and a contract has been let to drive a 300-foot tunnel on the claims. The coal is of good quality, and has given every satisfaction both for domestic and steaming purposes.

The industry has been initiated by well known local business men, and the management will be placed in the hands of competent engineers. Local investors are making large purchases of shares in the new company, and all the money will be expended in developing the property. It is expected that next winter's fuel for the valley will be supplied from the new mines, as every effort will be made to hasten the work of development and placing the product of the mine on the market.

VISITED REVELSTOKE

Board of Trade Has Interview With
Party of C. P. R. Officials.

A deputation from the board of trade waited upon Mr. G. J. Bury, assistant general manager of western lines, and Mr. F. E. Busted, general superintendent of Pacific division, who arrived in the private freight train "Hampden" attached to the tourist train. Vancouver, says the Revelstoke Herald, matters of local interest and importance were brought up before the officials. On being asked whether there was any truth in the report that the shops were going to be removed from Revelstoke, Mr. Busted said that the matter had never been considered and that no such plan had ever been entertained. As a matter of fact the shops and round house were being added to and many improvements were being made. When questioned as to the likelihood of a tourist hotel being built in Revelstoke, Mr. Bury said that no steps would be taken in this direction; that the hotels handled by the C. P. R. were far from being paying concerns, but necessary on account of the tourist traffic.

Regarding the Big Hill, he said that extensive work was being done there to facilitate traffic. Mr. Bury left for the south late in the evening and will make an extended tour of the Kootenays.

PROMINENT PEOPLE

Testify to the Efficacy of the New
Scientific Dandruff Treatment.

A. E. Lanier, Denver, Says: "Herpicide has made my hair grow rapidly."

G. T. P. AT FORT WILLIAM

Five Miles of Superior Line in Operation—Work Will Proceed Rapidly

Fort William, Ont., July 3.—The Grand Trunk Pacific railway is now running out of Fort William and the line to the Lake Superior branch is now in running order for a little over five miles. Track laying has been under way for the last couple of weeks and the construction trains are busy hustling stuff to the front. Now that the start has been made the track laying will be proceeded with rapidly, and before the end of the summer.

The first train over the Grand Trunk Pacific railway was in charge of William Grant, who is now general yard master for the Grand Trunk Pacific at West Fort. The line is now three engines in the construction work, and a shortage of ties is feared here as the company have 100,000 on hand at West Fort, which will carry them up right into the territory where they have immense piles along the side of the right of way which will be picked up and distributed by the construction trains.

Justice Harlan of the supreme court of the United States, The Rochester Herald says, plays golf infrequently and Justice McKenna is on a trifle less devoted to the game. They are walking on the Chase links a few days ago, when it came McKenna's turn to play. He built a sand tee most carefully sized up the distance to the next hole, made wind calculations, then raised his driver, made a mighty swing and—missed. For full ten seconds he stood and looked at the little ball resting securely on its sand pile. It was Justice Harlan who finally spoke: "That is the most profane silence I have ever heard, McKenna."

GOVERNMENT AND COMPANY CLASH

Trouble Over Location of Wire-
less Telegraph Station On
This Coast

CHARGES BREACH OF FAITH

Marconi People Say Authorities at
Ottawa Have Broken Contract
With Them.

There is trouble as a result of the Dominion government's decision to establish wireless telegraph stations on the British Columbia coast. Cecil Duntre, superintendent of wireless telegraph stations for the government, who was in Victoria a few days ago, announced that stations equipped with the Shoemaker system of wireless telegraphy would be established within six weeks at Victoria and Pacheña Point, and other stations at Cape Lazo, Estevan Point, and different places would follow. Now, it seems, the Marconi Wireless Telegraph company holds that not only has the Canadian government broken contracts made with the company for the establishment of the stations, but also is purchasing apparatus in the United States identical in character with that of the Marconi company; in other words that the Canadian government proposes to infringe the patent rights of the Marconi Wireless Telegraph company of Canada.

Because of this the Marconi company threatens action in the courts, and the matter of the establishment of the stations waits.

Mr. Duntre, the expert from Ottawa has left the city. It was stated some days ago that the Shoemaker system which he proposed to establish differs from the other systems now in use. The Marconi system is being installed on the steamer Camosun, first steamer in British Columbia waters to be equipped with apparatus, the work having been commenced yesterday by B. S. Y. Clifton, an engineer of the Marconi company. No announcement has been made with regard to the system to be installed on the C. P. R. steamers, which are soon to be equipped with apparatus.

Capt. J. H. R. Yardley, representative of the Marconi wireless telegraph company, said:

"I understand that the representative of the department of marine and fisheries has stated that the Dominion government is about to erect wireless telegraph stations on this coast and that such stations, when erected, will be owned, maintained and operated by the Dominion government."

"The Marconi Wireless Telegraph company of Canada whose representative I am on the Pacific coast, has been for some time past in communication with the government authorities at Ottawa, regarding the erection of wireless telegraph stations in the west, and has offered to erect the same free of charge to the government."

"My company is moreover advised that the government is bound by a certain contract to give us the option to erect stations ourselves, and that the present action of the government constitutes a breach of this contract on the basis of which we have offered to erect the stations required by the government on this coast, free of charge to them, and to submit to all reasonable regulations for the working of those stations in such a manner as to give the greatest advantages to navigation."

There exist today several contracts between the government and my company, the first of which, completed in 1902, regulates the conditions for the erection of wireless telegraph stations required by the government, and further stipulates that the Marconi company shall have the option of erecting any stations which it may be decided are to be erected, but also compels our company to sell wireless telegraphic apparatus to the government, at a fair and reasonable price, in the event of our availing ourselves of our option of erecting the stations ourselves.

"The intention of this contract was to preserve to the government the right to erect stations cheaply and to give to the Marconi company which is purely and simply a telegraph company, the right to erect stations at such places as commercial telegraphic business may seem to justify their erection, and as would fulfill the requirements of navigation and commerce."

"The Dominion government has now, without any notice to the Marconi company, purchased in the United States, wireless telegraphic apparatus, identical in character with that being manufactured in Canada by the Marconi company."

"Apart from the question of contract rights and of patent rights, this action on the part of the government must, at the best, appear improvident, in view of the fact that the Marconi company has offered to erect the stations on this coast, guaranteeing them to be suitable for efficient working and free of any cost to the government, and as is generally known, no better wireless telegraphic service can be secured than that given by the apparatus of the Marconi companies, in use nearly all over the world, and, while our apparatus is manufactured by one company in Canada, that purchased by the government is of foreign manufacture."

"Apparently the contention of the government is that in purchasing apparatus in the United States, and not from the Marconi company, it relieves itself of the obligations imposed in its contracts with our company, but I am informed that the contract refers not only to the purchase of apparatus from our company, but refers to our (Marconi) system of wireless telegraphy, and that it is a mere quibble on the part of the government to say that the purchasing of apparatus identical in character to our own, from elsewhere, leaves them free to disregard our contract rights."

"The Marconi company protests most emphatically against the action of the Dominion government in purchasing, in the United States, apparatus identical

to that manufactured by them in Canada, against the breach of contracts, and against the use of its patents.

"The Marconi Wireless Telegraph company of Canada, Limited, is a Canadian company, with a large number of Canadian shareholders, and we expect and have every right to expect, better treatment at the hands of the Canadian government."

"Should the government, however, persist in what we are informed constitutes the confiscation of our patents, our contract right and our inventions, we shall be forced to take the alternative of protecting our shareholders through the medium of the courts."

GEORGIAN BAY CANAL

Robt. W. Perks Claims Waterway
Could Be Finished in Four Years

New York, July 2.—Robert William Perks, M.P., who returns to England on the Celtic after a business trip of a month to Canada, said in an interview that the frequent labor strikes in the United States were "an economic barbarism." Mr. Perks is at the head of the Georgian Bay & Montreal

Canal company. He is an engineer and has been associated with the largest engineering undertakings in England and South America. He said that at one time his company had employed on the different undertakings 32,000 men and that there was never a strike. "President Roosevelt," said Mr. Perks, "deserves credit for his great courage in opposing the tyranny of the trusts, but there is also tyranny in the unions and in dealings with the organizations he has adopted a middle course. One thing that surprised me here was the numerous strikes. I think they are an economic barbarism. All questions arising between employer and employee can be settled without appeal to arbitration. I have always made it a practice to meet the men employed by us and discuss the problems with them and tell them what we could afford to pay. We never had a strike."

"The St. Lawrence canal will cost about \$100,000,000, and if the Dominion government," said Mr. Perks, "would adopt the plans, it ought to be finished in four years."

BUILDING PERMITS

ISSUED LAST MONTH

Over Sixty-five Thousand Dollars
Worth of New Work
Authorized

The building permits issued by the city building inspector during the month of June show \$65,500 worth of buildings in course of erection in the congested district comprised within the city fire limits. No estimate of the buildings erected in the suburbs and the outlying portions of the city is made until the end of the year though the inspector from time to time makes the round and sees that the contractors are complying with the regulations.

Permits were issued for the following buildings: T. M. Brayshaw, 2 story frame building covered with galvanized iron, \$3,500; L. Goodacre, 2 story brick stable, Cormorant street, \$8,000; W. A. Lorimer, one and half story frame building on South Turner street, \$2,000; Merchants' Bank of Canada, 2 story brick and stone building, corner of Yates and Douglas street, \$40,000; W. Wilson, one story brick building and basement on Trounce alley, \$12,000; total, \$65,500.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, and the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

A man knows a lot of things when a fight is over that he didn't when it began.

AIM TO PREVENT

DOUBLE TAXATION

Arrangements Made Regarding
Succession Duties—New
Brunswick in Scheme

Toronto, July 2.—The government of several of the Provinces of the Dominion have intimated their willingness to consider favorably the opportunity offered by Ontario for a reciprocal arrangement in reference to the collection of succession duties. New Brunswick is the first province to formally enter into such an agreement. Its administration has passed an order-in-council extending the provisions of the New Brunswick Act so as to harmonize with section 6, sub-section 2, of the Ontario Succession Duties Act. This simply means that New Brunswick will not collect duties on the real estate of property situated in Ontario on which the latter province has already levied a tax, on condition that Ontario refrains from taxing the portion of an estate situated in New Brunswick. This plan is intended to prevent the double taxation of estates, situated partly in one province and partly in another, as is possible under the present law. Provisions will, however, be made for cases in which the rate of taxation in one province exceeds that in the other. The Ontario government will now have to pass an order-in-council similar to that passed by the New Brunswick cabinet.

Section 6, sub-section 2, of the Succession Duty Act says: "Where any property is situated out of Ontario and any interest therein as aforesaid shall have paid any estate, succession or legacy duty or tax elsewhere than in Ontario an allowance for the amount so paid shall be made by this province, and the property upon which such duty or tax has been paid elsewhere shall be subject to the payment of such portion only of the succession duty provided for in the preceding sub-sections of this section as will equal the difference between the duty payable under this act with respect to property in Ontario, and the duty or tax so paid elsewhere; provided that allowance for any estate, succession or legacy duty or tax payable elsewhere in Ontario shall be made under this sub-section only as to any country, State or British Province or possession where an allowance is made for the succession duty paid under this Act on property situated in Ontario, passing on the death of any person domiciled elsewhere than in Ontario, and the Lieutenant-Governor-in-Council, by order-in-council, shall have extended the provisions of this sub-section as to such allowance by this province so as to apply to such country, State or British Province or possession."

Good advice is the kind you remember when you get sorry you didn't take it.

ATTEMPTED MURDER

CASE IS DISMISSED

Prosecuting Witness, Afraid of
Results, Disappears from
the City

B. Maarmas, the Greek who told the police the thrilling story of how V. Steemeteere, a fellow countryman, armed with two long and ugly looking knives, tried to carve him to death in the Regent saloon on the night of June 20, was not present when the case of attempted murder in the police court yesterday morning. This made the second failure of the prosecuting witness, and as there was good reason to believe that he had taken his departure from the city no further adjournment was asked for. The accused, who since the day following the fracas has been at liberty under heavy bonds, was discharged.

Investigations made by the police throw a different light on the trouble to that given by Maarmas whose dramatic recital of a murderous attack made upon himself, caused the arrest of Steemeteere. Independent witnesses who had been subpoenaed were prepared to testify that Maarmas did not throw the cuspidor which cut Steemeteere's scalp and injured his skull, in self defense. The bartender's version of the story is that the two Greeks had some trouble while drinking in the saloon and that Maarmas knocked Steemeteere down by striking him on the jaw with his fist. Steemeteere then went out of the saloon, returning a couple of minutes later when he showed Maarmas a knife and advised him to keep his distance as he did not want any more trouble with him. There was no further disturbance till Steemeteere left the saloon. Then Maarmas picked up a cuspidor, followed him outside and struck him on the back of the head as he was going peacefully in the direction of his home.

The friends of Steemeteere say that Maarmas is a bad man with a record that would do him no good in the court of justice, that he is always looking for a trouble, and he in his time found a trouble, and he knew he was to blame for it. He knew he was to blame for the fracas in the Regent, and while his victim was in the hands of a surgeon he hurried to police headquarters believing that all he had to do was to convince the officers of the law that his story was true and Steemeteere would be put in jail. When the hearing of the case was delayed, and he had occasion to realize that the truth had been found out, he disappeared for his own safety.

CATARRH CAN BE CURED

Kill the Germs by Breathing Hy-o-mei—Gives Quick Relief
Many people who have suffered with catarrh for years naturally think they cannot be cured, and become discouraged.

The reason they have failed of cure is because they have not treated the disease with the local remedy, Hy-o-mei, which is breathed through a neat pocket inhaler so that its healing medicated air reaches the catarrh germs and restores the mucous membrane of the nose, throat and lungs to a healthy condition.

Catarrh is really a local disease and to cure it, must be treated by a remedy which reaches every spot in the nose and throat where the disease germs lodge. The Hy-o-mei does this and gives relief from the first day's use. A complete Hy-o-mei outfit costs but \$1.00 and D. E. Campbell gives a guarantee with every package to refund the money unless it cures.

TRADE PROSPECTS

WITH JAPANESE

Canadian Goods Are Becoming
In Demand—Constant En-
quiries Made

Toronto, July 2.—"With the friendly relations existing between Great Britain and Japan is coming a large increase in trade between Canada and the Island Empire," was the statement made at the offices of the Manufacturers' association.

Each year a Canadian Trade Index is issued by the manufacturers, with the result that foreign trade is encouraged. Through the volume are fairly leads containing questions which traders in other countries can extract and send back to Canada in case information is wanted with reference to any special line of Canadian-made goods. This year 200 copies of the index were sent.

During the past month no less than 15 letters of enquiry have been received from Japanese firms. They request information relative to prices and quality of as many as 50 different articles mentioned in the index as being made in Canada. The lines seem to be chiefly in the most are pulp, paper, asbestos and woollen and cotton goods. Some few enquiries have been received about machinery and agricultural implements, but the prospects for trade in those lines are not so bright, owing to the fact that the English manufacturers are strongly entrenched.

The inevitable result of this desire for information on the part of the Japanese is the establishment of a large trade between that country and Canada. Owing to the proximity of the two countries, it is believed an office in Canada, where a great future is opening for trade in that section.

EMIGRATION HAS ONLY COMMENCED

Canada the Most Promising and
Successful Field For
Colonization

Edmonton, July 3.—The Hon. C. W. Cross, attorney-general of Alberta, returned to Edmonton after two months' absence in England and Europe, where he went for the purpose of consulting a specialist regarding his throat which has for some time given him considerable trouble.

With respect to immigration and his observations in the old country, Mr. Cross says emigration from the British Isles to Canada has only just begun and Canada is regarded by people and government as the most promising and successful field for colonization. He attributes the interest of the English settlers in Canada to the intelligent and energetic immigration policy of the British minister of the interior, Hon. Frank Oliver.

The stream of settlers from Great Britain is setting in today and in greater volume than has been flowing over the Canadian border from the United States during the last eight years. What the Hon. Mr. Sifton did to advertise Canada in the United States Hon. Mr. Oliver has done to advertise the western provinces in Great Britain and Ireland. "Once started," said Mr. Cross, "this flow of immigration will continue to bring in thousands of the very best settlers to western Canada."

"When I left England," said Mr. Cross, "the weather was cold and wet. It was colder than was reported from Edmonton." The weather conditions in France were a month behind the normal conditions this year, and according to Mr. Cross' story the fruit trees and foliage of the Mediterranean were from three to four weeks behind former years. "In fact," said Mr. Cross, "the weather has been backward all over the world and from what I can learn Alberta gains in comparison with the other countries and far surpasses many of the provinces of Europe." He further says that complaints were general of the backward condition of the winter wheat crops in central and eastern Europe.

On the Theatrical Business

A. A. Davis, manager of the Nanaimo opera house was in the city yesterday on his way to Seattle to confer with John Cort in regard to theatrical bookings for the Coal city during the coming season. Mr. Davis says the companies that visited Nanaimo last season all met with good business, and that with a better outlook for the future he hopes to secure some of the best companies that come to British Columbia.

Locates in Victoria

J. W. Astley, ex-general superintendent of the Le Rod mine at Rossland, who recently returned from a three months visit to England, has decided to make his headquarters in Victoria for the future. He has been an office in the British American Trust company's building where he will be prepared to do business as a consulting mining engineer. Mr. and Mrs. Astley have taken a residence on the Dallas road, at Boyd street.

VISITS VICTORIA ON QUEST OF ASSISTANCE

Russian Nobleman Seeks Money
To Build Seminary In His
Country

Baron Uxkull, a Russian nobleman, has been visiting Victoria, his mission to raise funds for a seminary at Revel for the education of evangelical missionaries. He has raised \$20,000 of a fund of \$100,000 he is seeking to secure.

Baron Uxkull, who speaks with a decided accent, is a member of one of the most aristocratic families in Northwestern Russia. At the age of 21 he began his military career as an officer in the Imperial Guard at the Russian capital. One of the two occasions he had the distinction of commanding the bodyguard of the Czar. On leaving the army he settled down on the family estates, where scores of the tenants, poor peasants, underwent conversion, having fallen under the influence of Swedish Lutheran missionaries.

The transformation effected among the converts had affected him deeply, and after being stirred by one of Tolstoy's novels he was converted in 1890.

Since then he has devoted his life to the cause of the Russian people. The baron told how further study of the Scriptures had decided him to accept the faith professed by the Baptists. Now the church had nineteen churches in his native province, and the outlook for the future looked decidedly encouraging.

Young men are being sent abroad to receive a training for missionary effort among the Russian people. It had recently been decided, however, that the time was ripe for establishing a seminary in Revel, where young Russians could receive the necessary education for engaging in the regeneration and uplifting of the masses.

After visiting Victoria Baron Uxkull will proceed to California and then journey eastward, delivering addresses in various cities.

WAR IN ALASKA

Rival Railway Schemes May Bring
About Serious Conflicts

Seattle, July 3.—A special despatch to the Associated Press from Valdez, Alaska, tells of the preparations for armed conflict between the Copper river and the Northern railway forces and the Alaska Pacific railway men at Katalla. The Copper river railway which is known through out Alaska as the Guggenheim property, aiming to tap the Copper river district, is attempting to cross the right of way of the Alaska Pacific company, known as the Bruner line, which also aims for the Copper river district by way of Lake Charlotte. The Bruner people have applied to Governor Hoggatt for the protection of United States troops, alleging that the Guggenheim forces contemplate an armed attack upon them. The authorities at Valdez admit that the situation is serious.

The launch Pioneer, which arrived at Valdez yesterday from Katalla, brings word that the Bruner road has erected a "go devil" at the crossing which the Guggenheims are trying to take. The machine, by means of a donkey engine, swings continually across the tracks, making it impossible for men to come within a radius of 50 feet of the Bruner line.

The same launch brings the report that block houses of thick timber have been erected along the right of way of the Bruner people, and that the Guggenheims are paying \$2 an hour to fighting men with a bonus of \$100 for the first man who crosses the Bruner right of way.

The Copper river road is now built about 30 miles from Katalla. The Bruner road so far has done nothing but terminal work at Katalla. Since its start, a few months ago, there has been constant trouble between the Bruners roads and Guggenheims.

Several times the right of way of the Guggenheim road has been dynamited when the Bruners engineers claimed the Copper river road had crossed their territory.

An injunction asked recently by the Alaska Pacific railway and the Ter-

MR. RICHARD McBRIDE

Mr. McBride has undoubtedly gained very greatly in prestige by reason of his mission to London. By an irony of fate, which is by no means uncommon, his political opponents have contributed to his standing as a public man. One of the most stupid things in political life is the constant depreciation of your opponents. Taking men as they go, there is not very much difference between any two groups in point of ability, sagacity and a desire to advance the interests of the country. No one can claim a monopoly of these things, yet Mr. McBride's critics, from their superior point of view, refused to see a single good quality in his make-up—we speak, of course only in respect to him as a public man—and his views and action upon every phase of the better terms question have been subject of hilarious ridicule on the part of the Opposition press, which even went so far as to question the integrity of his motives. This makes his success all the more notable. Indirectly they have made his triumphs the more conspicuous and contributed to the advancement of his reputation as one of Canada's rising public men.

The critics of the Opposition were blind to the law, and deaf to the story of the facts. That it was possible for a provincial premier to secure recognition of the claims of the province before the Imperial Parliament, when those claims were hostile to the position taken by the Dominion Parliament, seemed to them to be the dream of a political novice or the invention of a political adventurer. The conspicuous position which Sir Wilfrid Laurier occupies before the public men of the United Kingdom, and the fact that, for various reasons which need not be mentioned here, he is persona gratissima with the present British Government, were facts which in the opinion of the Opposition made Mr. McBride's defeat a foregone conclusion. In view of these considerations the fact that he was able to open the door which Sir Wilfrid Laurier and the Parliament of Canada had closed in the face of the province, and that his action received very complimentary references not only from gentlemen prominent on both sides of the Imperial House of Commons but from the leading newspapers of the metropolis of the Empire stands out with a degree of pleasing prominence which it would not otherwise have attained.

There is no question as to the effect which Mr. McBride's success will have upon his future career. It marks him out for high position in the ranks of the Conservative party of Canada. The old saying that "nothing succeeds like success" is perhaps more applicable to politics than to any other line of activity and the great success achieved by Mr. McBride will secure for him a reputation in all parts of Canada, which will undoubtedly lead to an early day to his entry into a larger field of usefulness. There is plenty of work in Canada for men of Mr. McBride's stamp to accomplish. At the same time the Colonist has no desire to see him leave the provincial field. British Columbia presents wonderful opportunities for a public man to make himself extremely useful not only to the province but to Canada as a whole. Upon this Western frontier some of the most important work in the whole British Empire will have to be done, and while the federal arena is the more conspicuous of the two, we are strongly of the opinion that the provincial field might easily be made the more profitable to the people of the Dominion as a whole. If the great questions to be dealt with here are handled with the same tact, firmness and knowledge as Mr. McBride has exhibited in connection with the campaign for better terms. Therefore, although we believe that the demand of the Conservative party of Canada, that he shall enter the federal house, will be one that he will find it impossible to resist, it would be with great regret that the Colonist would witness the transfer of Mr. McBride's activities to Dominion politics.

There is in Victoria at the present time a gentleman, Col. May, who is engaged in promoting the Hudson's Bay and Pacific Railway. He says that he has found no difficulty in securing the needed backing. From our knowledge of the subject we are very strongly of the opinion that, if the facts which such an investigation as was recommended by the Transportation Commission would bring out, were now available, there would be even less difficulty in interesting capital in a road "from the plains of Alberta" to Victoria than was experienced in connection with the proposed H. B. & P. Railway. But unfortunately the data are not available, for Mr. Smith's report, though very favorable, needs to be supplemented by one made in the light of modern experience in railway building. We use this simply as an illustration of the value of gathering the sort of information which the commission recommended the government to secure.

It is only proper to say on this occasion that the Colonist has suggested a means whereby not only the Victoria connection, but other important railways in this province might be secured, and at the same time some return might be made to British Columbia for the exceedingly large grant of land made to the Dominion in the Peace River valley. We mention this only in passing. It is a phase of the general question to which further reference will be made.

In regard to Mr. McBride's "unequalled opportunity," to which our contemporary refers, we have a few observations to make. It is distinctly announced that the Dominion government does not propose to act upon the recommendation of its own commissioners, and that the result of their inquiries here are to be looked upon as so much waste paper, we

of Alberta to an ocean port on the west side of Vancouver Island. That in case of the building of a bridge at Seymour Narrows or elsewhere, connecting the mainland of British Columbia with the island of Vancouver such bridge and the approaches thereto, and the land on both sides of the water running back from same, such distance as may be deemed reasonably necessary to allow of free access thereto, be owned and controlled by the government of Canada, with the view of according equal rights on and over such bridge and its approaches to all railways desiring to use it.

The commissioners reached these conclusions after hearing all the evidence given in Victoria upon the subject, and after perusal of the Memorial of the Board of Trade and examination of the maps and additional memoranda furnished them at their request. It will be observed that the recommendation is for "a further and exhaustive survey" of the route, which the proposed connection would have to follow. Those who are familiar with the subject know the necessity for such a survey. The route was examined by Mr. Marcus Smith, C. E. in the early '70's, and by him strongly recommended for the Canadian Pacific Railway. Later one of the chief officials of that company stated under oath that the adoption of the present route, instead of by the way of Yellow Head Pass Bute Inlet, had cost the company many millions of dollars. A further examination of part of the route was made by Mr. H. P. Bell, but his report did not add much of value to the facts gathered by Mr. Smith. These matters were laid before the railway Transportation Commission, and it was pointed out to that body that, if the country were examined with the light cast upon mountain railway building by an experience of thirty years, a better route even than that selected by Mr. Smith might be found. This met the hearty approval of the commissioners and explains why they recommend a further and exhaustive survey. This was two years ago, but nothing whatever has been done upon this recommendation.

It has always seemed to the Colonist that this recommendation having been made to the Dominion government by commissioners appointed by that government specially for the purpose of examining into such questions, it was peculiarly the province of the Dominion government to take action along the line suggested, and that for the provincial government to interfere would be to trespass upon a matter which the federal authorities already had in hand. Our impression has been, and yet is, that possibly such a very satisfactory report would follow such a survey that the desired railway would come "automatically," to use the expression of the Times. In other words, in view of the construction of the Grand Trunk Pacific, which has not yet been begun in this province, the probable plans of the Canadian Northern and the other railway projects for connection between the Atlantic and Pacific, we were under the opinion that, if the recommendation of the commissioners was promptly acted upon, some one or other of these railway companies might see that it was to their interest to build to Victoria by way of Seymour Narrows. We did not think that the matter was as yet sufficiently advanced for either the Dominion or the provincial government to formulate any plans for construction, for, as has been above pointed out, a survey might show so good a case that railway builders would be anxious to utilize the route under existing charters without any inducement being held out on the part of either government. And this is the view of the matter, which the Colonist holds today. It looks upon the determination of the best route as the thing which ought to be taken in hand without delay, and it is for this, and for nothing else, that we have been contending for many months, until our contemporary has grown "impatient."

There is in Victoria at the present time a gentleman, Col. May, who is engaged in promoting the Hudson's Bay and Pacific Railway. He says that he has found no difficulty in securing the needed backing. From our knowledge of the subject we are very strongly of the opinion that, if the facts which such an investigation as was recommended by the Transportation Commission would bring out, were now available, there would be even less difficulty in interesting capital in a road "from the plains of Alberta" to Victoria than was experienced in connection with the proposed H. B. & P. Railway. But unfortunately the data are not available, for Mr. Smith's report, though very favorable, needs to be supplemented by one made in the light of modern experience in railway building. We use this simply as an illustration of the value of gathering the sort of information which the commission recommended the government to secure.

It is only proper to say on this occasion that the Colonist has suggested a means whereby not only the Victoria connection, but other important railways in this province might be secured, and at the same time some return might be made to British Columbia for the exceedingly large grant of land made to the Dominion in the Peace River valley. We mention this only in passing. It is a phase of the general question to which further reference will be made.

In regard to Mr. McBride's "unequalled opportunity," to which our contemporary refers, we have a few observations to make. It is distinctly announced that the Dominion government does not propose to act upon the recommendation of its own commissioners, and that the result of their inquiries here are to be looked upon as so much waste paper, we

should not hesitate for a single moment to urge upon Mr. McBride the timeliness of action on his part in that direction. But we do not like to lose ground already gained. It took a good many years of steady agitation to bring matters to such a point that the value of railway connection between Vancouver Island and Central Canada was conceded by an absolutely impartial commission appointed by the Dominion government, and the Colonist would like, if possible, to hold the ground thus gained. This is why we have not urged the matter more strenuously upon Mr. McBride and his colleagues, and why in such pressure, as we have endeavored to bring to bear upon our representatives in the House of Commons and the local legislature, we have confined ourselves to the necessity of such an inquiry as the commission recommended. If we felt justified in accepting the expressions of the Times as indicative of the attitude of the Dominion government in this regard, we should at once begin an agitation to induce the provincial government to take the matter up; but we decline to believe that the Times represents the views of Sir Wilfrid Laurier in this respect. We decline to believe that the appointment of the Transportation was a meaningless thing. We know on the contrary, for we have seen his written statement to that effect, that Sir Wilfrid Laurier looks upon the report of the commission in this particular as something of great importance. Therefore we shall not for the present join in any agitation to have the provincial government take up a matter of which the federal government is already seized. But we know the importance of prompt action in such enterprises; we know the efforts that are being put forward by other parts of Canada to have their claims recognized; we know the limitations of even the ablest men; we know the history of past railway projects; and knowing these things we take the ground that the representatives of the constituencies directly interested in this great project must bestir themselves very vigorously if we are to enjoy the advantages that can easily be brought within our reach.

In the remarks that have just been made, as in the many articles that have already been printed upon this question in these columns, we have intended no political allusions. The Colonist has only one object in this regard, and it is to do what lies in its power to secure to Victoria the advantages of its unrivaled position. These advantages are not as yet appreciated by those interested in great railway projects, and they will not be thoroughly appreciated until "a further and exhaustive survey" has been made of the route to be traversed by the proposed railway. Therefore we hold as yet that the matter is peculiarly within the province of the federal authorities. We are the more impressed with this view, by the fact that the commissioners recommended that the part of the through connection, which is vital to its success, should be "owned and controlled by the government of Canada."

In view of the foregoing considerations, it does not appear necessary to follow the Times along the line of discussion, which it saw fit to take last evening. The Colonist has not hesitated to express its opinion of what it regards as the mistaken policy of the Turner government in this connection, and it was not its fault that the negotiations with Messrs. Mackenzie & Mann fell through. Since those events the nature of the situation has been changed by the policy of the government, which the Times supports, and we are pleading at present for effect to be given to that policy. Our contemporary is in error in saying that the Colonist attributed its course in this matter to its fear of embarrassing the government. Our observations to that effect had reference only to the Vancouver Island members of the House of Commons, and the Island members of the local legislature. We may, however, borrow an expression from our contemporary. If the interest taken in the proposed connection by the Turner, Dunsinuir and Prior ministries, which were non-partisan, makes it "up to" Mr. McBride to take action along the same lines, how much more must it be "up to" the Dominion government to give effect to the recommendation of its own commissioners?

Sir Charles Tupper is reported as being seriously ill in London. His many friends in Canada will hope for his speedy recovery. Sir Charles is now an old man and cannot hope long to escape the fate which sooner or later overtakes all of us; but he is still such a prominent figure amongst the public men of the Empire that the news of his impaired health will be learned with great regret in this country, which he did so much to advance along the path of national progress by his able, constructive statesmanship.

Fred F. Congdon, ex-Governor of the Yukon, has been telling the people of Ottawa some interesting facts about the climate of that wonderful district which will cause them to open their eyes in astonishment. He is of the opinion that it is going to be a finer agricultural land than Scotland, and that shortly people will be rushing to the hotels of the Arctic ocean to escape from the heat of Eastern Canada. He has drawn a pretty picture of conditions in the north, and in the main it is true; but there is no reason why people from the sweltering East should rush to the Arctic to escape the heat. If they come to Victoria they can find the most desirable climate conditions in the world at all seasons of the year.

PRETTY WEDDINGS AT ANGLICAN CATHEDRAL

Heisterman-Arbuckle and Winsby-Lindsay Nuptials Were Celebrated Yesterday

Before a large and fashionable assemblage gathered in Christ Church Cathedral yesterday afternoon at 2 o'clock, the marriage of Bernard S. Heisterman to Miss Margaret Farabee Arbuckle, daughter of Mrs. T. S. Gore, was solemnized. The occasion proved one of the social events of the season and the prettily decorated church presented a beautiful scene during the ceremony.

Rev. Canon Beaudin united the happy couple in wedlock. The bride who was given away by her stepfather, T. S. Gore, looked charming in a princess robe of real Brussels lace. She wore a bridal veil with coronet of orange blossoms and carried a shower bouquet of white roses.

Miss Olive Heisterman was maid of honor. She wore a becoming dress of pink voile over white chiffon and taffeta with a white picture hat and carried a bouquet of pink roses.

The bridesmaids were the Misses Troup, Marion Pitts, Adair and Archibald. They were a handsome group in their white organdie dresses with elaborate insertion of valenciennes lace and empire sashes of flowered ribbon and veils with coronets of marguerites.

Miss David Ker made a pretty little flower girl. She wore a white organdie trimmed with valenciennes lace with a chiffon hat and carried a basket of marguerites.

The groom was supported by John Arbuckle and the ushers were J. H. Laxson, Arthur S. Gore, H. A. Ross and Edward Browne.

After the service the wedding party adjourned to the residence of the bride's mother, "Arran," Oak bay, where a reception was held. The happy couple left on the Princess Victoria in the evening for Seattle en route to Southern California amid the well-wishes of a large party of friends who were gathered at the wharf to bid them goodbye. On their return Mr. and Mrs. Heisterman will take up their residence on Pemberton road.

The groom's present to the bride was a pearl star and to the bridesmaids small gold marguerite brooches.

Winsby-Lindsay

A quiet but pretty wedding was that of Capt. William N. Winsby, principal of the South Park school and son of W. P. Winsby of this city, to Miss Edythe Lindsay, daughter of A. Lindsay, also of this city, which took place at Christ Church cathedral at 4.30 o'clock yesterday afternoon.

While none but the immediate relatives of the bride and groom were present as invited guests, the church was crowded with the friends of the contracting parties. Rev. Canon Beaudin officiated.

The bride was gown in white peau d'ane with hand-made veil of real lace and carried a shower bouquet of white bride's roses and smilax. She was attended by Miss Fanny Finlayson who wore white organdie and a picture hat and carried a bouquet of pink carnations and asparagus fern.

H. T. Lindsay, brother of the bride acted as groomsmen.

At the conclusion of the ceremony a reception was held at the residence of the bride's parents after which the newly-wedded pair left on their honeymoon which will be spent in Southern California.

The wedding presents were numerous and costly. Amongst them was a handsome cut glass service and silver tray from L. C. Hall and the officers of the Fifth regiment and presents from the teachers and pupils of the South Park school.

Upon their return in a month's time Capt. and Mrs. Winsby will reside at 121 Toronto street.

PERSONAL MENTION

J. J. Cowley, a highly esteemed resident in the city, is reported as dangerously ill. His recovery is hardly hoped for.

W. H. Loat, of the Wellington Colliery company, leaves this week for Quebec en route to Liverpool. He sails by the C. P. R. Atlantic line steamship Empress of Ireland.

J. M. Abbott, of the city police force, with his wife and four children, will sail from Quebec on the Empress of Ireland for an extended vacation in the old country.

J. W. Brown, a real estate dealer of Winnipeg, is in the city looking over the local property market. He anticipates a large influx of home seekers from the prairie provinces to Vancouver island this coming fall.

Herbert Stanton was among the passengers to Seattle yesterday afternoon. Miss Molly O'Sullivan, of Vancouver, is visiting Mrs. Sweeney, Johnson street.

Mrs. A. McKeown has returned from White Horse, Y. T. where she spent a couple of months visiting her son. Mr. and Mrs. A. W. McKeown have returned from a pleasure trip north. They were as far as Lake Bennett.

Smith Curtis, the well known lawyer of Rossland and ex-member of the provincial legislature, who was an unsuccessful candidate in the liberal interests in Similkameen district in the last general election, is in the city on business.

C. E. Redfern, ex-mayor of Victoria, left last evening for England where he will spend the rest of the summer. On his way to the old country Mr. Redfern will visit some of the prairie cities of eastern Canada and the United States where he will make selections of goods to be added to the stock he carries in his jewelry store, Government street.

Miss Edna Henry, M. A. of the Victoria college teaching staff, left yesterday morning to spend the vacation in Montreal and various places in Ontario.

Miss Molly O'Sullivan, daughter of Mr. O'Sullivan, assayer, Vancouver, is spending a week in Victoria and is the guest of Mrs. Sweeney, of Johnson street.

Now a Limited Company

The Dominion Real Estate exchange Trousseau alley, was registered as a limited company yesterday. The managing director of the company is A. G. Grafter.

Monarch Bank.

The Canada Gazette gives notice of the organization meeting of the Monarch bank of Canada at Toronto on June 18. This is of interest locally as a large list of subscribers reside in this city and a branch is to be established here.

Late Additions to this Big Furniture Stock

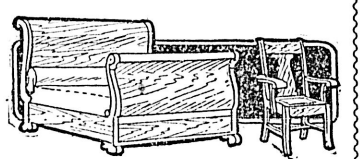

YES, the big stock of this big furniture store has received large additions in New Furniture lately. During the past few days several carloads of the very newest designs in Bedroom Suites, Chiffoniers, Buffets, Hall Racks and Library Tables have been added.

These come in a variety of woods, finishes and designs. Golden Oak, Early English Oak, Surface Oak and Elm share about equally as to the quantity. The designs all through are above the average, and in the lower priced lines this is particularly noticeable.

We had this year an exceptionally heavy run on low priced Bedroom Suites, and, unfortunately for many of our friends, sold pretty low on all these lines and completely out of some. We want all those and everybody to know that we now have a large stock of these goods on view in our fourth floor showrooms ready for your inspection at any time.

THESE NEW LINES ARE WORTH A VISIT FROM YOU SEE THEM SOON

Extra Value in Two Piece Bedroom Suites

THERE is one item among these many new arrivals to which we must call your particular attention. It is a two-piece Bedroom Suite which for style, quality, price and genuine good value all through cannot be equalled in the town.

The suite consists of two pieces—Bureau and Washstand—and comes in two styles of finish—Elm and Golden Surface Oak. The Bureau has three large drawers and large British Bevel Mirror. The Washstand has one large drawer and door.

We would like you to see these for we are confident you will agree with us that they are the biggest values offered in this line for a long time.

There is a heap more styles in them than you see in many much higher priced suites.

BEDROOM SUITE, 2 pieces—Bureau and Washstand, in Elm, extra fine finish \$17.00	BEDROOM SUITE, 2 pieces—Bureau and Washstand in Golden Surface Oak, very fine suite \$18.00
---	---

The Ostermoor the Best Value in Mattresses

Ostermoor Mattresses are not the usual kind that most people consider good enough, not the cheap kind, dear at any price, but cheaper in the end by far than the cheapest of all. They are the different kind—the better kind—of a quality not obtainable elsewhere at any price. Quality only bears the Ostermoor label. Ostermoor quality. One suggests the other. Not a mattress for one taste, but for all tastes. Not for one pocket but for all pockets. An underpriced luxury. We are the sole agents for this celebrated mattress and sell it at the prices charged in New York, Chicago, Montreal, Toronto, etc. 4.6 x 6.3 each \$15.00

Extra for two pieces 50¢

THE WEATHER

Meteorological Office,
Victoria, 8 p.m., July 3,
SYNOPSIS.

The barometer remains low over both the Pacific and the middle west provinces and states owing to the movement of low pressure areas from the ocean across the upper part of this province, and the disturbance is now central over the mountains; both east and west of the Rockies there has been good rainfall and thunderstorms have been numerous; unsettled weather conditions are likely to continue during the next 24 hours.

Total precipitation .23
Rain, 28 inch. Sunshine, 3 hours 18 minutes.
Bright sunshine 213 hours 18 minutes; mean daily proportion .44; (constant sunshine being 1).

WEEKLY WEATHER SYNOPSIS

SYNOPSIS

Meteorological Office,
Victoria, B. C., July 2.

The week opened on June 26 with the barometric pressure continuing high along the coast and low over the mountains, and fair weather resulting from Cariboo to California. The pressure then began to decrease between the ranges; rain fell at Barkerville and fresh to strong westerly winds prevailed on the straits. By June 29 an ocean area of low pressure had spread inland to the Rockies, causing rainfall on the lower main land and in the Kootenays. On the following day slawyer conditions were general throughout the province, although only a trace of rain fell in this vicinity. By June 29 the barometer had risen along and in the north Pacific states and fair weather with high temperatures became general west of the Rockies, to the northward however a disturbance appeared which developed on the evening of July 2, causing a welcome rainfall generally and a thunderstorm at New Westminster. In the prairie provinces there has been considerable rainfall; the temperatures during the first two days were high, ranging close to 90, but cooler weather prevailed during the remainder of the week.

At Victoria there were registered 29 hours and six minutes of bright sunshine; the highest temperature was 77.1, on June 26, and the lowest 51.2, on June 30; only a trace of rain.

At Vancouver, highest 79, on 26th; lowest 51, on 1st; rain returns incomplete.

At New Westminster, highest 82, on 26th; lowest 52, on 27th and 28th; rain 16 in.

At Kamloops, highest 94, on 26th; lowest 50, on 1st and 2nd; rain 12 in.

At Barkerville, highest 81, on 26th; lowest 46, on 1st and 2nd; rain returns not complete.

Port Simpson returns incomplete owing to wire trouble.

Atlin, highest 70, on 26th; lowest 36, on 26th and 27th.

Dawson returns incomplete.

ONE BYLAW OUT OF THREE IS ENDORSED

Sewer Extension Is Provided for
and Sales of Property
Defeated

Of the three by-laws submitted to the property holders yesterday the only one which carried was the sewer loan measure. The other two to authorize the sale of certain lands belonging to the municipality by the council for the sake of raising revenue were defeated. The total vote was a small one, but 492 ballots in all being cast. The vote was as follows:

Sewers loan guarantee by-law 287

For the by-law 112

Against 175

Majority for 112

Sale of James Bay mud flats, 115

For the by-law 257

Against 142

Majority against 142

Sale of driving park property, 112

For the by-law 268

Against 112

Majority against 112

There were three ballots blank for the first, 31 blanks for the second, and 22 blanks for the third.

As a result \$50,000 will be borrowed upon the security of the frontage rents or taxes and sewer connection rentals for sewer extensions throughout the city. The city lots on the reclaimed land at James Bay flats and the strip of land at the driving park not at present authorized will not be sold.

Mayor Morley expressed his satisfaction on learning of the result of the vote. "The most vital of the three by-laws has passed," he remarked.

Health and Morals

The health and morals committee of the city council held a meeting last evening at which a number of matters of routine business were transacted.

Better buy a butter crock. They are only 20c, 25c, and 40c, each, and will hold ten and twenty pounds of butter respectively. Covered crocks from one to four gallons at 35c, per gallon. Bean pots 20c, to 70c. R. A. Brown & Co., 80 Douglas street.

Mayor Stewart, of Hamilton, complains of the dumping of penitents in the city.

GREAT EXPANSION IN COAL INDUSTRY

A. C. Flumerfelt Tells of New
Mines Being Opened In
Western Canada

NO FEAR OF ANOTHER SHORTAGE

Railway Companies Are Supplying
Cars in Adequate Quantity and
Outlook Is Most Satisfactory.

A. C. Flumerfelt, who recently returned from a trip to Eastern Canada, was interviewed by a Colonist reporter yesterday, previous to his departure for the mainland, where he will spend the next couple of days, returning on Friday.

On being asked about the coal outlook and fuel situation generally, Mr. Flumerfelt, who is president of the International Coal and Coke company, limited, said: "The International is now listed on the Montreal and St. Paul stock exchanges. Shares were first called in Montreal on June 18. It is the intention of the company to publish monthly reports of the work. The month just closed, though our properties were not operating to their fullest capacity resulted in the production of 31,000 tons of coal, made 3,980 tons of coke in the same period.

"We began to double our shipments a few days ago and intend increasing our production of 1,400 tons per day to 2,500 tons or 2,500 tons. We have 76 coke ovens in full blast and are producing 250 tons of coke per day. "Our coke production has all been contracted for to the Dominion Copper Co., and the B. C. Copper Co., the total production of our coal has also been contracted for up to as great a figure as we can reach.

"A quarterly dividend of 1 1/2 per cent. has been declared and will be paid on August 1st next. This is the third quarterly dividend. The books will close on July 15, to August 2, inclusive."

"How about the labor situation?" "The labor situation seems to have become settled and the men employed in our mines are thoroughly satisfied. We look for no disturbances nor even strained relations within the period of the contract, which, as you well know, is two years."

"At the recent convention of the Western Federation of Miners at Denver, it was predicted that a big strike would shortly be called. Will that effect Western Canadian coal miners?"

"No," he replied. "The coal miners of the northwest are not affiliated with that body. They severed their connection three years ago. They are members of the United Mine Workers of America, at the head of which is John Mitchell, who is known as an eminently fair and able representative of the miners."

"Do you anticipate another serious shortage of coal next winter?"

"No, I do not. The railway companies are making every effort to supply cars for the various collieries; and since they resumed operations we have had a full supply, and have an assurance from Mr. Whyte of the C. P. R. that the product of all the mines will be moved promptly and placed within reach of the probable consumers."

"It may be observed, in this connection that we are making an effort to double our output, and if reports are true, other collieries in the Crow's Nest are increasing their tonnage materially. The increased production, together with the new mines being opened up, ought to have an important bearing on the fuel supply throughout the northwest."

"What about developments in Alberta?"

"We are opening a new property in Alberta which promises well. We have located a vein 14 feet thick. A temporary plant is already on the ground, our hope and expectation is to develop a position to deliver 300 tons of coal per day by the end of the year. It may be stated that it is a pure domestic coal (lignite) and is suitable for all classes of domestic use. In addition my associates have acquired a further area lying further eastward. Our property is a small working mine which we will develop rapidly. This also should be a factor in meeting the demand for fuel. I feel justified in saying we will be producing 300 tons per day from this mine at the end of the year. The quality of the first quality of domestic, and the company operating it is known as the Empire."

"The Western Coal and Coke Co., operating at Taber, Alberta, have a substantial equipment and are opening up large areas which are likely to develop into big producers. This company is headed by O. A. Roberts, of St. Paul, who is a progressive and aggressive American with practically unlimited capital at his disposal."

"What is your opinion of the situation affecting the coast collieries?" "I have no knowledge of conditions at the coast. I have expended large sums of money investigating the coal deposits on Vancouver Island, with a view to developing mines, but I am not well informed as to the present situation and outlook at the coast mines. My one aim and desire is to develop these properties, thus doing my share towards providing for the requirements of the country, apart from any profits which might accrue as a result of my operations."

Picnic Postponed.

Owing to unsettled weather, Harmony hall Sunday school picnic has been postponed until a week from today.

DON'T FAIL TO SEE IT.

If you have any love in your soul for the beautiful, any taste for things artistic, you will be delighted with the display of hand-painted china from the Pickard studios now on exhibit in the store of W. B. Shakespeare, the Government street jeweler.

The beautiful shapes, pleasing decorations, brilliant coloring and diversified style of hand-painted china, together with the rich gold work, all combine to give Pickard's hand painted china that exclusive merit so much appreciated by people of taste and refinement. Nothing tells the story so well as the china itself. It must be seen to be appreciated.

Every piece produced in Pickard's studios is entirely hand painted, each article representing the individual work of one person.

The complete studio line is shown in this exhibit. But none of the pieces shown are for sale.

LEAVE PRINCE ALBERT TO LIVE IN VICTORIA

Mr. and Mrs. James H. Sander-
son Are Given Hearty Send-
off by Friends

James H. Sanderson, an old-timer of
Prince Albert, Saskatchewan, who has
had a long and successful business
career in that city, has sold out the
most of his holdings there, and, with
Mrs. Sanderson, is coming to make his
home in Victoria. Mr. and Mrs.
Sanderson paid a visit to this city in
August of last year, when the former
acquired some interests in timber on
the West Coast of Vancouver Island,
and they were so charmed with the
city that they have decided to leave
Prince Albert and come here to live.

That Victoria is gaining two good
citizens in the coming of Mr. and Mrs.
Sanderson is evident from the Prince
Albert newspapers. The Prince Albert
Advocate devotes a column and a half
to an account of a farewell banquet to
the departing couple. The paper says:
"It is nearly thirty years since James
H. Sanderson settled in Prince Albert
and cast in his lot with the settlers
in the then young and struggling set-
tlement. In the history of the city, which
followed he took an active part,
helping to build up the community and
building for himself at the same time
a place in the respect of his fellow
men which any man would be proud
of."

"Having borne his share of the toll,
Mr. Sanderson has left Prince Albert
to enjoy a well-earned and well-mer-
ited rest in Victoria, B. C. His old
friends could not let the departure of
such an old-timer pass without notice,
and so it was that a party of them,
the young men and women of a
quarter of a century ago gathered in
the dining room of the Windsor hotel
to say au revoir to Mr. and Mrs.
Sanderson."

The mayor of Prince Albert and a
notable gathering were present, and
the sheriff, who was chairman, read
an address that had been prepared and
presented some handsome presents to
the departing couple.

Refused the Application
Mr. Justice Irving yesterday re-
fused the application for a writ
of certiorari in the case of Peter
Hansen, who was con-
victed of breaking into a Chinese
restaurant and stealing some money. J.
A. Alkman made the application on
behalf of his client and W. S. Moresh
for the crown opposed it. It was
claimed that the court proceedings
were irregular but the contention was
not sustained.

Fire Record for June
The following is the fire record for
June; the damage in no case exceed-
ing \$25. June 4, Albion moulding shop;
5, Dods restaurant, Henry st. roof
fire; Rev. M. Harper, Catherine st.
roof fire; 8, at Indian reserve, shed
burned; 13, chicken brooder on John
st.; 17, Pookey, wood shed; Lamp-
son st.; 25, grass fire, Catherine st.;
June 26, sidewalk fire, Cormorant st.;
ash heap of Driard; June 27, Grass fire
Government house; grass fire, Rich-
ardson st. In all five false alarms were
sent in.

Friendly Help Society.
The regular monthly meeting of the
Friendly Help society was held Mon-
day, Mrs. William Grant, first vice-
president, occupied the chair in the
absence of the president. The treas-
urer's report showed that 24 persons
had been assisted during June, 13 had
been given groceries, 11 clothing,
fuel and milk was supplied to 6.
Cash donations were thankfully re-
ceived from the following: The city,
Mrs. Watson, a friend and Miss Law-
son. Collected are acknowledged. Mr. H.
Winifred McGill, Mrs. Hermann, Rob-
ertson, Mrs. Lee, Mrs. O. Jacobson, a
friend and two nameless bundles.

OBITUARY NOTICE

The death of Mrs. Walker, wife of
Donald Grant Walker occurred sud-
denly yesterday from heart failure at
the family residence, "Inavale," Oak
Bay avenue. The deceased had resided
in this city for the past twenty-
three years and had a wide circle of
friends. Both she and her husband
were natives of New Brunswick, but
resided for a number of years in the
United States coming here from Osa-
kas, Wisconsin. The family are
members of the Central Baptist
church, both the late lady and her
husband having originally been
charter members of the Calvary Baptist
church. The deceased is survived
by her husband and two daughters,
Jessy and Mrs. M. E. Cleveland, who,
with her husband, is residing in the
city prior to returning to her home in
South Africa.

At London, Ont. Wesley Wong, of
the Chinese Cafe, was fined \$20, and
costs for supplying two guests with a
corkscrew and two glasses of water,
the visitors having a bottle of whis-
key with them.

MAKING ARRANGEMENTS FOR MERCHANTS' PICNIC

Music and Good Programme of Sports
Will be Provided for — Big
Success Anticipated

The committee in charge of the ar-
ranged picnic for the merchants' picnic
to be held at Langford, B. C. on July
25th held a meeting on Tuesday even-
ing, at which a number of matters in
connection with the arrangements for
that day were considered.

A report from the music committee
was received, and when arrangements
have not been definitely settled, there
will be a good musical programme.

The sports committee have almost
completed their programme. It will
be quite as lengthy as that of other
years, while the prize list is even finer.
It is thought that the competition will
be excellent as the prizes are well
worth competing for.

The ground for the games will be
roped off. A baseball match will
probably come off. A team from Na-
namo will be secured to play a local
aggregation. Hot water will be sup-
plied those desiring it, free of charge.

The transportation committee re-
ported that the fare would be fifty
cents return.

IS ENCHANTED WITH VICTORIA'S BEAUTIES

George Lawrence, One of Mani-
toba's Leading Politicians,
Speaks City's Praises

George Lawrence, M. P. for Kill-
arney, Manitoba, left for Vancouver
yesterday after a short visit in Vic-
toria. Mr. Lawrence is one of the best
known public men in Manitoba, and
one of the most popular members of
the legislature, in which he has occu-
pied a seat since the general elections
held on December, 1899, when Hon.
Hugh John Macdonald succeeded in
ousting the Greenway government
from power. That election he de-
feated Hon. Findlay Young, speaker
of the legislature, who, following his
enforced retirement from politics, was
given a seat in the Dominion senate.
In the next election, in 1903, Mr.
Lawrence secured one of the largest
majorities in the province and in the
general elections held on March 7th of
the present year he defeated R. L.
Richardson, ex-M. P., owner of the
Winnipeg Tribune, who admits that he
is the only honest man in Canadian
politics. Mr. Richardson after figur-
ing on every possible side of politics
from straight liberal to straight Con-
servative, and as an independent with
leanings, at various times, toward
each of the old time parties ran against
Mr. Lawrence this year as one of the
leading supporters of Edward Brown,
leader of the Liberal party in Mani-
toba. Despite the fact that the local
constituency of Killarney was Mr.
Richardson's stronghold when he re-
presented Lisgar in the House of Com-
mons, Mr. Lawrence defeated him by
a majority of 1,000.

While in Victoria, Mr. Lawrence was
the guest of William Hodgins, formerly
of Killarney, but now of Victoria.
Mr. Lawrence, in conversation with a
reporter for the Colonist, gave a
hopeful account of the crop outlook in
the prairie provinces. "In fact," said
he, "we have never had brighter
prospects, and expect to reap a pro-
fitable harvest. We were a bit late in
sowing, but the timely rainfall toward
the end of June has brought
freshness and vigor to the crops, the
whole country being a sea of green,
that is pleasing to look upon."

"Our farmers are exceedingly san-
guine and, generally speaking, we are
making rapid strides in agriculture,
dairying and stock raising. The Win-
nipeg exhibition will be the greatest
in the history of the city. We are
looking forward to the fruit exhibit
from Vancouver Island and the move
will prove of great benefit to British
Columbia in giving our people a
greater opportunity to judge the fruit
growing possibilities of our province."

Asked regarding the political sit-
uation, he said: "The Roblin govern-
ment have handled with marked ability
the various matters of importance
that have been brought before them,
and I believe in every instance have
given satisfaction to the vote that
gave them the reins of power. We ex-
pect to carry the province at the next
Dominion election, for in 1904 several
seats were stolen from us by striking
from the voters list the names of
King's printer at Ottawa the names
of well known Conservatives. In some
constituencies hundreds of residents
were disfranchised in this way. Such
a thing will, however, never occur
again, for we will be on the lookout
for it."

Concerning Mr. McBride, he said:
"Mr. McBride is looked upon with
great favor. Mr. Roblin has told me
that your premier's course during the
conference of provincial premiers was
the only one for him to take. Had he
dejected the situation of the province
of Laurier he would undoubtedly have
sacrificed the province's interests, but
he fought nobly, and is much admired
from the Atlantic to the Pacific, and
personally, I anticipate a great future
for Premier McBride."

"Yes, indeed, I notice the change in
my own constituency. Quite a num-
ber of my staunchest supporters have
left Manitoba and now live in Vic-
toria. Many more are preparing to
follow, and while we regret the loss,
I cannot blame them, for Victoria is
decidedly the most beautiful city in
Canada, and I can easily understand
why it is so much talked about. Hon-
estly speaking I should be frightened
to stay here very long. The climate
is so terribly inviting that I rather
think of getting the feeling of
leaving one to pastures new. I leave for
Vancouver today, but I shall come with
my family and spend the winters here,
California has long been a favorite
with Manitobans, but as we become to
know Victoria better we wonder why
we ever went to the American city."

FISHERIES COMMISSION MEETS HERE NEXT WEEK

Business in Connection With the In-
dustry on Vancouver Island
Will Be Wound Up.

The B. C. Fisheries Commission will
meet in this city July 10. Prof. Prince
the Dominion Fisheries' commission
chairman is expected to arrive in the
city in a few days time. He will be
accompanied by two professors from
McGill University who will assist in
selecting a site for the proposed Ec-
ological station for the study of marine
life which will in all likelihood be placed
at Departure Bay, near Nanaimo.

The session of the commission will
not be a long one it is thought as the
only business before it will be the
winding up of the business connected
with the Vancouver Island fisheries.
The commission is composed of the
following: Prof. Prince, chairman, J.
P. Babcock, the provincial fisheries'
superintendent, Rev. W. Taylor, of
Wellington, Campbell, Sweeney, of
Vancouver, J. G. Brown, of New West-
minster, Richard Hall, of this city,
Chas McIntosh, of Victoria is sec-
retary.

Five New Barristers

Five new barristers were called to
the bar yesterday before Mr. Justice
Irving. They were the fortunate ones
of the eighteen who wrote in the final
law examinations last week. Two of
the quintette were from this city, and
the others were from Vancouver. They
were as follows: Hugh Culbert Keef-
er, Vancouver, Cyril Francis Davey,
Victoria, John Keefe Kennedy, Van-
couver, John Henry Austin, Victoria,
and Elmer Watson Jones, Vancouver.
The ceremony of swearing in the em-
bryo lawyers was simple and short,
they being merely called upon to take
the oath. The proceedings took place
in chambers with no spectators.

MACHINE SHOPS ARE RUSHED WITH WORK

Local Plants Are All Months
Behind With Their
Orders

There is an unprecedented demand
for all kinds of machinery, machine
tools, castings, and every shop in Vic-
toria is far in arrears of orders.

The Marine Iron Works are working
40 men and are being urged by cus-
tomers to hasten forward deliveries.
They manufacture marine and slide
valve engines, and brass and iron cast-
ings of all kinds. Their market is con-
fined to British Columbia and has been
built up in the last seven years by
Andrew Gray, proprietor.

Hutchison Bros. & Company, Limited
is quite a new and valuable in-
dustry, and when properly known will
be in good demand for the repair of
motor cars, and supplying gasoline
engines to launches and small water
craft.

The new foundry recently completed
has a cupola from which one ton of
brass or iron castings may be run.
"The story at Robinson's Iron Works,
months behind with our orders."
Their specialty being bridges and ship
work and general blacksmithing. This
business was established by John Rob-
inson many years ago, and is today a
monument to his business acumen.

In 1886 the Victoria Machinery De-
pot Company, Limited began business
in this city, since then it has grown
to important proportions and is one of
the largest machine shops in British
Columbia. Its specialty is in the man-
ufacture of all kinds of marine ma-
chinery and logging engines. Its trade
is local to the province, it is now up
to the eyes in orders.

The rate of wages at the machine
shops averages \$2.50 per day. In this
industry there is paid out in wages
over \$100 per day to the workmen
employed while the manufactured
product turned out will not fall short
of \$275,000 per annum.

HOLIDAY TRIP

Excursion Will Be Run to Port An-
geles Today

The steamer Indianapolis will carry
a large contingent of Victorians to
Port Angeles today to help the
citizens of the city across the Straits
celebrate July 4. The Port Angeles
Tribune Times says:
"It is expected that our neighbors
and friends on the other side will
again avail themselves of the annual
opportunity to visit us and help us
celebrate the glorious day of our na-
tional independence. One of the crack
military bands from the other side has
been engaged by the music committee
and will put in its appearance on the
first trip of the steamer, spending the
remainder of the day here and giving
the people the pleasure of all day con-
certs on the streets. The Victoria
baseball team is coming over to try
conclusions with the now strong Port
Angeles team, and a big game is prom-
ised. The usual list of entertaining
street sports has been arranged. The
decoration committee has matters well
under way and all other plans will be
complete by next Wednesday evening."

DIVIDENDS—4 per cent interest will
be credited to all depositors' accounts
by the B. C. Permanent Loan and Sav-
ings company on July 15th, 1907.
If you start an account now you will
be one of the fortunate depositors'
next dividend day.
Deposits of one dollar and upwards
received at any time.
Commence now and watch your ac-
count grow.

EXONERATE PRESIDENT
FROM CHARGES MADE

Trades and Labor Council Have
Confidence In Mr. Watters
—Officers Elected

The Victoria Trades and Labor
Council met last evening, President
Watters in the chair. The following
delegates presented their credentials
and were seated: J. McLeod, Electric
Railway Employees.
Carpenters and Joiners—J. B. Mar-
tin, N. Nicholson, M. Anderson and E.
A. McEachern.
Tailors' Union, No. 142—Ed. Chris-
topher.
Machinists—Chas. Maguire.
Barbers' Union, No. 372—William
Lewis.

The committee appointed to investi-
gate the charges made against Presi-
dent Watters, reported as follows:
"To the officers and members of the
Victoria Trades and Labor Council:
"Gentlemen,—We, your committee,
appointed to enquire into the charges
against President Watters, beg to re-
port as follows:

"After repeated efforts we procured
an interview with Mr. A. Bechtel, who
informed us that he had nothing to
add to the statement he had made in
court, but promised to furnish the
statement at once, in writing.

"Two weeks have since elapsed and
though Mr. Bechtel, the secretary, has
reminded him of his promise over the
telephone a number of times, and also
by letter, Mr. Bechtel has so far failed
to keep his word. Mr. Watters on the
other hand denies ever having made
the offer. We find that at no time
had he the power to settle the strike,
and he knew that he had no such
power.

"He must also have known that the
employers were well acquainted with
the way the strike was conducted, and
that he could not hope to lead them to
believe that he could settle the strike.

"Therefore, we conclude that it is
very improbable that the offer was
ever made and suggest that Mr. Bechtel
must have misunderstood some of
Mr. Watters' remarks.

"All of which is respectfully sub-
mitted.

"A. JOHNSON,
"E. GILLIGAN,
"A. HERBERGER,
"Committee."

President Watters stated that he
had consulted a lawyer, and was ad-
vised that he could not take action for
libel on the strength of evidence given
in court. But that he would go before
a justice of the peace or notary public
and make oath denying the statements
of A. Bechtel.

A motion was then passed that the
affidavit in question be published in
the daily papers at the expense of the
council, if necessary.

W. E. Ditchburn, chairman of the
Labor Day celebration committee, re-
ported regarding the facilities for cele-
brating Labor Day in Victoria.
A resolution was finally passed de-
ciding to celebrate the day at home,
and the committee were given power
to make all necessary arrangements.

A very strongly worded letter was
received from the Anti-Japanese
League of San Francisco, which was
ordered filed.

The annual election of officers re-
sulted as follows: President, J. C.
Watters; vice-president, Wm. McKay;
secretary, C. Seivritz; treasurer, A.
Johnson; executive committee, R.
E. A. Herberger and E. L. Ditchburn.

Owing to the lateness of the hour
the installation was deferred until next
meeting.

Fun for the Boys.

The real live Buster Brown and his
dog "Tige," who for so long have been
the makers of so much fun and merri-
ment among the rising generation of
the United States have actually decided
to make their appearance in this city,
and will make their headquarters at the
booth and shoe store of Messrs.
McCandless, Cathcart, 35 Johnson
street. They will hold a reception on
Tuesday, July 9th, at 3 p. m., when
they will be pleased to receive both
young and old. Buster Brown alias
Reg. represents the Buster Brown
Shoe Co., of St. Louis, and his dog
"Tige," a black and white pointer, has
so long cheered the hearts of the lit-
tle folks of the continent and in fact
wherever he and his dog "Tige" have
appeared have been marvelous indeed
great crowds of both adults and chil-
dren. The above reception will be free
to all.

Fruit Exhibits for East

All the exhibits from Vancouver Is-
land to be shown at the exhibition on
the prairies are ready and the first
exhibits consisting of evergreens and
bottled fruit will leave for the east on
Saturday. The first of the fresh fruit
and flowers will be sent next Tuesday.
Messrs. McCandless, Cathcart, 35 Johnson
street, the Tourist association will leave for
the east to take charge of the exhibit on
Monday and T. W. Martindale will
follow on Tuesday. Beaumont Boggs,
A. W. McCurdy, and the finance com-
mittee for the exhibit, met with a
gratifying response yesterday in their
solicitation for subscriptions.

SAN FRANCISCO FIGHT FANS SWEET ON SQUIRES

Australian Is Strong Favorite In Betting Over Tommy Burns This Afternoon

San Francisco, Cal., July 3. (Special.)—This city is "Squires" crazy. On the eve of the big event there is no Burns money in sight and the Australian is a 7 to 10 favorite. Jim Jeffries referee has looked over both men and given them their rules. They must fight with one arm free and break at the order of the referee and at that Squires believes that he has the better of the breaking agreement. It was expected today that the last of the Burns coin from Los Angeles would show up but it did not. Squires remains the favorite and a pronounced one. Burns put in the day in Frisco but his personal appearance did not impress anybody. He paraded up and down the tangle but found few friends. His diminutive appearance caused his real friends to weaken and they were even switched to Squires. At six o'clock Jim Coffey announced that the advance sale amounted to twelve thousand dollars and it looked as if \$4,500 in spectators will see the fight tomorrow.

Squires will arrive at Arno at 11 o'clock and will be accompanied by Barney Reynolds, his representative and business manager, Bob Wren, of Australia, Tim McGrath, "great" trainer of Tom Sharkey, Judge Denton, of Australia and Tom Corbett, brother of the world's champion and the chief adviser of the man from Antipodes. All the Squires enthusiasts are certain that the visitor will gather the colly. If Squires wins he will have to fight Jeff. The champion reaffirmed his intention to recapture the ring today when he said "If Squires beats Burns he will have to beat me for I will not allow the championship to leave this country. Squires if he wants it will have to fight. I will be ready in three months." On account of the unusual conditions in this city the patronage of the fight may be weak from the labor portion. If conditions were ordinary the gate would equal any fight in the country.

Leaders Win Easily
Henley Eng., July 3.—The Leaders crew as anticipated won an easy victory over the London rowing club today in the first heat for the grand challenge cup. Leaders led all the way. British oarsmen are relying on the Leaders to win back the grand challenge cup, which was captured by Belgians last year.

Comfort-shaped
Perfectly-cut, doubly-sewn, wear-resisting, collar worth their price. The ARGO, pictured here, is ideally shaped for hot-day ease, yet fulfills all demands. Smart with large, soft bow or four-in-hand, knotted.

FIGHT TODAY FOR HEAVYWEIGHT HONORS

This afternoon at Colma, just outside of San Francisco, Cal., Nook Burns, better known to followers as Tommy Burns, the Canadian born, who holds the American heavyweight championship, will meet William Squires of Australia for the world's heavyweight championship. The man who wins will have a consistent claim to the world honors. Measurements of men:
Squires, 5 ft. 10½ in., Height, 175 lbs., 172 lbs., Weight, 40½ in., Chest, 33½ in., Waist, 23 in., Thigh, 16½ in., Arm, 11½ in., Forearm, 11½ in., Wrist, 7½ in., Hand, 7½ in., Neck, 15 in., Reach, 74½ in.

BILL SQUIRES
Australian heavyweight pugilist who meets Tommy Burns today at Colma, Cal.

Promoter—Jimmy Coffey.
Referee—Jim Jeffries.
Limit of bout—Forty-five rounds.
Seats provided for 9,000 spectators, which is more than was ever arranged for any other battle in California.
Price of tickets—General admission, \$2; reserved seats, \$5, \$7.50 and \$10; seats in back rows of boxes \$15, and ringside box seats, \$20.
Burns is to receive \$8,000, win, lose, or draw.
Squires was probably guaranteed at least \$5,000, but is boxing on a percentage basis.
Jim Jeffries will get \$1,000 for refereeing.
Total cost of fight—About \$20,000.
Time for men to enter ring—Two p. m. sharp.

Canadian Golf Team.
Toronto, July 24.—Fritz R. Martin of Hamilton Golf Club, George S. Lyon, and A. E. Austin of the Lambton Golf Club have already been chosen on the Canadian team in the Olympic golf contest for teams at Cleveland, July 28th. Gerald Lees of the Outremont Golf Club, Montreal, and W. A. H. Kerr of the Toronto Golf Club will probably complete the team.
All five have entered in the American amateur championship. The qualifying rounds for this will be played July 29th and 30th, with the big competition the following day.

Tommy Burns Birthplace
Enquirer.—Tommy Burns (Noah Burns) is 26 years old. He was born on June 17, 1881, at Hanover, Ont. His mother was German his father was French, he is a Canadian by birth and the American papers class him as an American fighter. As for Tommy he says he is a Hanoverian.

TOM LONGBOAT WOULD RUN AT FALL FAIR

Manager of Famous Indian Runner States That He Will Come For Expenses

J. E. Smart, secretary of the B. C. Agricultural Association, has received a reply to his letter to Harry Rosenthal of Toronto, manager of Tom Longboat the famous Indian runner, inviting the latter to run at the fall fair here. Mr. Rosenthal states that Longboat will run here against any accredited amateur athlete the local association may secure for a trophy, providing the association will pay the Indian's expenses from Toronto to here and return.
The matter will come up for consideration at the meeting of the local association executive. The conditions laid down by Mr. Rosenthal are considered extremely liberal and it is more than likely that the association will accept his terms. Longboat's fame as a runner is world-wide now and he would prove a great drawing card for the fair. It is altogether likely that if he comes he will be booked to give several exhibitions during his stay, going after the coast records from three miles up.

The association would have to secure a capable runner to meet Longboat but it is quite probable that William Chandler, the Vancouver athlete who won the Seattle Marathon, could be secured to oppose the Indian. Chandler is looking for an opportunity to meet Longboat and would not doubt jump at the chance afforded him by the exhibition authorities.

Piles get quick and certain relief from Dr. Sheep's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by Cyrus H. Bowes.

SECOND ALEXANDRA CUP RACE TO BE SAILED TODAY

If American Boat Wins Again the Cup Will Pass Into the Possession of the Seattle Yacht Club

The second race for the Alexandra International cup will be sailed today off Seattle between the Spirit, the American challenger, and the Alexandra, the Canadian defender. If the Spirit

Warranted to you by the dealer, by the maker to him. Form-fitted for comfort's sake; won't stretch, won't shrink. Made in many fabrics and styles, at various prices, in form-fitting sizes for women, men and children. Trade-marked in red as above.

Victoria Oarsmen Beaten in Junior Events at the Seattle Regatta

Nelson Captures the Junior Four With Portland Second and James Bay Crew Third—Kennedy Beaten by Laing of Vancouver in Junior Singles the Only Other Event Rowed

Seattle, July 3.—Under trying weather conditions the first day's events in the annual regatta of the North Pacific Association of Amateur Oarsmen were pulled off on Lake Washington this afternoon. Heavy showers were falling all afternoon and the surface of the lake was rough, choppy waves making it unpleasant for the oarsmen. The poor arrangements made by the local club were again manifested at the course but finally all was in readiness for the first event, the junior fours. A vigorous protest was registered by the visiting oarsmen against the entry of the Seattle club's crew on the ground that two of them had pulled in the eight, but the protest was rejected. The officials upheld the protest and the local crew was barred. Five shells got away nicely when the gun was fired and the Washington boat took up a position outside the course and entered into the contest. Striking a nice pace, the Nelson boat was soon a bit in the lead and pulling well together with never a variation of their pace, the crew from the little city in the mountains kept straight for the finish. The James Bay crew started a poor course as did the local boat outside the course. The two Vancouver boats were distanced about the mile. Washington then swamped them and the Nelson boat was trailing the time for the mile and a half was 3:35, which was good under the conditions.

The officials warned Coach Murphy, of Portland, off the course as his motor boat was following. Portland shell closely and it was alleged that he was coaching the crew. The Nelson boys deserted their victor and tonight are highly elated.

The Seattle Yacht Club will take the cup. If the Alexandra wins there will be a third and deciding race on Saturday.
The Alexandra cup is to be made of solid silver and is to be a hand-made. It represents a naval punch bowl, somewhat similar to those used in the old British navy on festive occasions. They were usually made of copper, silver or gilt and from them was dispensed the rum punch by the jolly tars of that day. The bowl is round in form and has ship figure heads with the carved bow and "anchor weighed" at each side. One figure is the British lion with extended mane, upon which stand Britannia with trident and fabled anchor. The other represents Columbia, robed in the stars and stripes, holding the helm of destiny and wand, surrounded by the star of empire. Surrounding the lip is the rope buckle, eye and gear. The arms of British Columbia, surrounded by the British crown and flanked on each side by the American and British flags laurels of victory and maple leaves are to be worked in colored enamels. At the foot or stand reposes the beaver of Canada and flag of the association. The cup was designed by W. H. Archer of Vancouver, member of the Canadian Association of Architects, Fellow of the American Institute, who studied art in London, Paris and New York.

The race and did not figure among the leaders. Szisz was second in 6 hours 53 minutes 10 seconds; Lancia third, ten minutes behind Szisz.

The race was marked by no serious accidents, although a minor collision occurred between two of the cars. Only one of the contestants finished. Elliott P. Shepard, American, persevered to the end, finishing last, in 7 hours 39 minutes 55 seconds. The English, Belgian and German racers made almost as poor a showing as Christie. Contrary to expectations, President Pailheres was not present. The cabinet was represented by Minister of Public Works Barthou.
The course was triangular, the angles being at Dieppe, Eu and Londinières, the course measuring 76 kilometers, 998 meters, and the competitors had to traverse this circuit ten times to make the total distance, a little over 760 kilometers, approximately 477 miles.
Nazarro, the winner of the race, finished third in the international automobile cup race in France, July 5th, 1905, and completed in the Vanderbilt cup race of October 14th, 1905, and October 6th, 1906, failing to finish on both occasions. He won the Florio cup at Palermo, April 14th of the present year, and June 14th last he won the German emperor's cup over the Taunus circuit.

ITALIAN CHAMPION WINS.
Automobile Grand Prix Race Won on Heavy Track at Dieppe.
Dieppe, July 2.—Nazarro, the Italian champion, won the automobile Grand Prix, covering about 477 miles in 6 hours 46 minutes 33 seconds. The race was run over a heavy track in the presence of a vast concourse with thirty-eight participants, chiefly French. Walter Christie, the only American participant driving an American machine, had trouble early in

COAST LACROSSE TEAMS NOT IN CLASS OF EASTERNERS
Jack Kearns of All-Canadian Australian Team Says New Westminster Is Not in Minto Cup Class.

Writing in the Toronto Star, J. M. Kearns of the Canadian lacrosse team now on the Pacific on their way to

Australia had this to say of the coast games:

Sporting editor, Star.—The "All-Canadians"—and that phrase generally displeases some people in New Westminster—have finished playing their games in Canada and today they embark for Australia.

The game on Tuesday last, was against the Vancouver of this city. This team and the Maple Leafs of this city and the Westminster team are in the district for the senior championship.

The tourists were in fair shape on Tuesday, and played a much better game than last Saturday, but the Vancouver won by a score of 5-2.

In every game there is an element more or less of luck, and in this game the luck was with the locals. On two or three occasions the tourists had the ball right on top of the Vancouver goal, but by a little slip a game was not scored, where it should have been.

However, the playing of the All-Canadians satisfied most of the large crowd present that they are really not quite as bad lacrosse players as Westminster would have them believe. The game was rather rough, and characterized by close, hard checking, and as usual, the local referee let everything go—but at that we tried to do our share.

The All-Canadians have played in all eight games and have won five of them. They have traveled about three thousand miles, and played the games in 15 days. So the record is not so bad.

Lacrosse here is played a little bit harder and rougher than it is in the East. The players seem to be allowed more liberty by the referee than would be tolerated in Ontario with the result that in most of the games some of the players are used up.

Westminster is the hottest lacrosse town that any of the "All-Canadians" were ever in. Over there they talk nothing but lacrosse and there is only one team in the world—and that is Westminster. Ever since their team went East the first time and did so well; they claim that there is nothing down there can touch them. They seem to forget that since their first visit down East they went down for the Minto Cup and came home without it.

I believe the Westminster team is better than the Vancouver, but I would not say that they could beat them in Vancouver.

And that I don't think either of them would make a showing against the Tecumsehs of Toronto, or any good N. L. U. team, and I think the first-class C. L. U. team where conditions were equal could give either team a good game.

The Westminster people are sore because none of their players are going on the trip to Australia. Mr. Miller had a deputation from Westminster wait upon him, asking whether one or two could not be taken along, but King John thought the only way for them to go would be to consult the passenger agent here, and get tickets from him.

The Vancouver News-Advertiser yesterday contained the following: "The Tecumseh lacrosse team of Toronto, at present leading in the race for the championship of the National Lacrosse Union, will be brought out to the Pacific coast this fall, according to a letter received by a local enthusiast from a member of the team. Manager Querrie, of the Indians, stated recently that the players would wait upon him, asking whether one or two could not be taken along, but King John thought the only way for them to go would be to consult the passenger agent here, and get tickets from him."

The only drawback to the trip by the Tecumsehs to the Pacific coast is that the Indians are out and out professionals while the British Columbia teams are amateurs. It is only a trifling bar of course from the view point of Manager Querrie, but it will be sufficient to prevent any such a trip taking place.

BASEBALL SCORES

Northwestern League

	P.	W.	L.	Pc.
Aberdeen	57	38	19	.667
Tacoma	67	40	27	.597
Seattle	60	32	28	.533
Spokane	60	31	29	.517
Butte	60	31	29	.517
Vancouver	62	11	51	.177

Wednesday's scores:
At Seattle, Seattle played poor ball on easy chances and Chaffin was hit at critical points with the result that Tacoma won easily by a score of 5 to 2. Butler cut the corners nicely and was given fine support. Arbogast's home run with one on base gave Seattle her two runs.

Seattle.....000000200-2 6 3
Tacoma.....000012200-5 9 1
Batteries: Chaffin, Rush, and Arbogast; Butler and Shea. Umpire Frary.
At Aberdeen—Vancouver game postponed, rain.

At Butte—Butte won in a seesaw game with Spokane by a score of 4 to 7. Roosevelt was in the box for the miners and had a trifle the better of the argument with Wright at the critical points. Spokane made a big rally in the eighth but it was no use to pull out the game.

R. H. E.
Butte.....8 8 2
Spokane.....7 10 1
Batteries: Roosevelt and Myers; Wright and Bender. Umpire Klopff.

Pacific Coast League

	P.	W.	L.	Pc.
Los Angeles	76	45	31	.597
San Francisco	77	40	37	.519
Oakland	83	43	40	.518
Portland	76	29	47	.382

Wednesday's scores:
At Los Angeles—Portland was helpless after the first inning.

R. H. E.
Los Angeles.....6 10 4
Portland.....2 8 2
Batteries: Burns and Eager; Hartman and Doherty.

At San Francisco—It was a thrilling thirteen inning contest.

R. H. E.
Oakland.....1 7 1
San Francisco.....2 8 4
Batteries: Cates and Dashwood; Joy and Street.

Quadra Cemetery Question

The conference between the cemetery committee and the committee to consider the Quadra street burial ground problem appointed at a public meeting some time ago did not materialize last evening. The representatives of the city were present but only two of the seven members of the citizens' committee turned up. Ald. Weston, the chairman of the committee requested the two members to write him outlining the proposal of the public committee which he is prepared to father as he has been informed that it embodies the most of his suggestions forwarded in a letter to Mr. Helmcken some time ago.

TECUMSEHS TALKING OF VISITING THIS PROVINCE

Professionals Will Find Only Amateur Teams on the Coast However, and so no Games

The Vancouver News-Advertiser yesterday contained the following: "The Tecumseh lacrosse team of Toronto, at present leading in the race for the championship of the National Lacrosse Union, will be brought out to the Pacific coast this fall, according to a letter received by a local enthusiast from a member of the team. Manager Querrie, of the Indians, stated recently that the players would wait upon him, asking whether one or two could not be taken along, but King John thought the only way for them to go would be to consult the passenger agent here, and get tickets from him."

The only drawback to the trip by the Tecumsehs to the Pacific coast is that the Indians are out and out professionals while the British Columbia teams are amateurs. It is only a trifling bar of course from the view point of Manager Querrie, but it will be sufficient to prevent any such a trip taking place.

You will count no convivial occasion complete without this pure charged water, once you discover the zest it adds to spirits and its thirst-quenching qualities. We vouch for its absolute excellence, even compared with the few imported waters which are nearly as good. Of course, you can pay more for them if you see fit, but—why should you?

MIYE MARU WAS ATTEMPTING RAID

Had Five Boats on Way to the Rookery When Intercepted—No Seizure Made

BOOM A QUARTER MILE LONG

Tug Pilot Arrives With Over Million Feet of Spruce Logs From West Coast Port

The Japanese sealing schooner Miye Maru was the vessel seized and after released by the United States revenue cutter Perry off the St. Paul rookery, according to information received by the Colonist yesterday. The Miye Maru was the vessel which with the Taiyo Maru took part in the fatal raid on the Seaplane rookery on St. Paul Island on June 16, of last year. The raiders landed with boats during the night and killed 299 seals. As daylight broke, they were surprised by Special Agent Lemby of the United States government and some guards who fired upon the Japanese, killing five and wounding others. Twelve were taken prisoners and sentenced to three months imprisonment, which was served at Valdez. The raiders were brought south and sent back to Japan by the United States government.

That in the present instance the schooner was apprehended while in the act of making a raid on the rookery is apparent, but she was released by the United States Steamship Perry, whereas the Carlotta G. Cox of this port, seized by the Rush on the high seas with all her boats on board, hundred miles away from any rookery, and while scudding under full sail for the Copper Island sealing grounds, off the Russian rookeries beyond the meridian, was seized and sent to Victoria for trial.

The Japanese sealing schooner was anchored just outside the three-mile limit, and had five boats' crews out pulling toward the rookery when the United States Ship Perry, with her nose around a corner of the island, fired upon her. The schooner was fired upon by the Perry, and the Japanese, who were armed and provided with six rounds of ammunition, surrendered to the government officers and were taken on board the schooner, which was towed by the Perry to Unalaska. No seals were found in the small boats and only 12 skins on the schooner. As the schooner was outside the three-mile limit and as no evidence of poaching in the way of skins was found in the boats it was decided to give the Japanese another chance before confiscating the schooner. The officers of the Perry were morally certain of the trespassers' intention to poach within the forbidden limits, but as no skins were found in the boats the necessary subjects were sternly warned and released. The schooner was beating its way out to sea when the Homer sailed from Dutch harbor.

Reeling sea is going to be well policed this season, and the Japanese poacher that gets away with many skins will be a wonder. In addition to the revenue cutter fleet the navy department will have two cruisers in the northern waters, Japan will have two cruisers and Russia will have two cruisers. When the Homer left Dutch harbor the Perry, Thotie and Manning had arrived. The Manning made the trip from Honolulu to Dutch harbor in nine and a half days. "The people on the Homer say that the native guards on St. George and St. Paul islands have been instructed to shoot any Japanese seen approaching either island."

REFUSED TO PAY

British Shipmaster Unwilling to be Mulcted by San Francisco Crimps

Captain Spivey, master of the British ship Pythone, has refused to pay blood money to the sailor trust and is shipping his own crew. This blood money now amounts to \$50 a man. The skipper who pays it usually is given a liberal percentage as it is given in the willingness on the part of the foreign skipper to make the money for himself at his own expense that makes the sailor business possible. Captain Spivey has refused to pay the blood money not wanting any of it himself and is engaging the men directly. He will have a full cargo in a day or two in addition to having saved his owners \$500 or more and his men the \$200 advance that would have gone to the sailor trust.

LINERS ARE DUE.

Moana and Tremont Expected From Australia and Manila.

Two liners are expected today, the Moana of the Canadian-Australian line from Sydney, via the usual ports of call, Brisbane, Suva and Honolulu, and the Tremont of the Boston steamship line from Manila via Hongkong, Keelung, Shanghai, Nagasaki, Moji, Kobe and Yokohama. The Moana left Sydney June 10th, Brisbane, three days later, and Honolulu on June 21st. The Tremont left Yokohama on June 21st, and is thirteen days out today. Other vessels expected in port today are the French steamer Amiral Jaureguiberry of the Chargeurs Reunis, which is

making a special call to bring a contingent of 242 Japanese from Honolulu via San Francisco, which port she left on Sunday, and the steamer Hazel Dollar, of the Dollar line, which is bringing 500 tons of sulphur for the Victoria Chemical Works from Hakodate, Japan, via San Francisco.

The only arrival other than the steamer carrying the cargo of the Hazel Dollar, which came from San Francisco in ballast for the steamer to load another cargo of coal for the Bay City.

The steamer Princess Beatrice is scheduled to sail tonight for Skagway via the usual ports of call. Among the passengers booked are W. M. Brewer, one buyer for the Tyee smelter; Mrs. Bailey, Miss Graham, Mrs. G. V. Munro, Miss Chambers, H. Kingston and Mrs. Willscroft.

IN A PREDICAMENT

Captain of Schooner Carrier Dove Does Not Know what to do With Crew

A Port Townsend despatch says: "Confronted by the regulations which became effective in May of the present year, the little schooner Carrier Dove, which arrived today from Eleese, will probably have difficulty in caring for her crew, which consists of Japanese. The schooner has been ordered to the quarantine station at Diamond Head, and her return is awaited with interest."

It is evident that the master of the vessel will find that he cannot land his crew and pay them off here, as would be possible with any other nationality than the Japanese or Chinese. This is the first crew of Mikado's subjects to land here since the establishment of the regulations promulgated by the president.

Speculation is being indulged in as to what method of procedure the captain will take when he finds the predicament of his vessel. The crew was undoubtedly shipped with no thought of violating the new laws.

MONMOUTH AT HONOLULU.

Cruiser Carrying Prince Fushimi Puts Into Hawaiian Island Port.

The British cruiser Monmouth, which sailed from Esquimalt on June 25th for Yokohama with Prince Fushimi and his suite on board arrived at Honolulu on Tuesday, seven days from the journey to Honolulu. The ship was made at the request of the Japanese prince, who decided to visit his nationals who are so numerous in the Hawaiian Islands. Honolulu is the first United States territory touched around the world. It is expected that a stop of not more than two days will be made to break the journey, and the Monmouth will then leave for Yokohama, where she is due about July 13th. Off Yokohama the Monmouth will be met by a fleet of Japanese warships assigned to convey the prince to port.

LARGEST BOOM

Brought Yesterday From West Coast by the Tug Pilot.

The largest boom ever brought into the inner harbor reached port yesterday in tow of the tug Pilot, Capt. Scarf. It contained over one million feet of spruce and was about a quarter of a mile in length. The logs which were brought from Port San Juan were consigned to the B. G. Graham Lumber Company's mill in the upper harbor. The Pilot left San Juan at 7 a. m. yesterday with her tow and reached the inner harbor shortly before 2 p. m. In order to swing the log boom into the harbor the tug was utilized, putting a line on the end of the long raft while the Pilot proceeded past the E. & N. bridge into the upper harbor.

As the boom was being swung into the harbor the red light beacon at Ship Point was knocked down. It will be replaced as soon as possible.

NEW EXAMINER.

Capt. Addie Is Appointed in Place of Capt. Mellon at Vancouver.

Capt. Demers, F. R. A. S., chief examiner of masters and mates for the Dominion of Canada, is in the city. He has been conducting the examination of Capt. Addie, who for the last seven years has been a resident of Vancouver, and was formerly a master of one of the city steamers. Capt. Addie has successfully passed the examination, and will be appointed as examiner of masters and mates at Vancouver. Capt. Mellon having resigned. He will conduct examinations for both deep sea and coastal navigation. It is likely that a marine school will also be established at Vancouver. Capt. Gaudin, agent of marine, is examiner at Victoria, and conducts a marine school in this city. From Dawson, Y. T., to examine Capt. Alcock, applicant for the post of examiner of masters and mates at the Yukon capital.

MARINE NOTES

The Canadian Pacific steamship Montrose from Antwerp arrived at Quebec yesterday with 510 passengers. British ship Matterhorn is ready for sea after shipping a crew of 150 men. The ship has 1,500,000 feet of lumber on board from the Hastings mills for Lorenzo Marquez, of Delagoa bay, as the charterers order on arrival at Durban.

While discharging cargo yesterday at Onychia, long wharf the steamer City of Toledo was run into by the steam schooner Coronado. The Toledo was struck on the port side forward, the Coronado cut through the Toledo's guard and damaged three of the latter's plates.

The steamer Boverie is expected from Nanaimo this morning en route to sea with a full cargo of sack and lump coal for Cape Nome.

The United States revenue cutter Rush is expected to be ready for sea on Saturday, and will then proceed north to resume her patrol in Bering Sea.

WIRELESS FOR THE GOVERNMENT VESSELS

Apparatus to Be Placed on the Quadra and Kestrel In Service in B. C. Waters

The Canadian government has decided to establish Shoemaker wireless telegraphic apparatus on board the Canadian government steamer Quadra, which has for some months been engaged in establishing acetylene gas beacons in northern British Columbia waters, and also on board the fishery protection steamer Kestrel. Apparatus will also be placed on the new fishery cruiser to be built, and it is probable that the hydrographic steamer Alexandra, being built at Esquimalt will likewise have apparatus placed on board. The government steamers on the Atlantic coast and Great Lakes are already equipped, each vessel having the Marconi apparatus.

With the use of wireless telegraphic apparatus the government cruiser, are always within reach. The steamer Quadra has been absent in northern waters, with the exception of a brief interval when Capt. Hackett returned for stores. With wireless telegraph apparatus in the event of a lightkeeper being in need of supplies or a buoy out of position the Quadra could be ordered at once to relieve the situation. On the Atlantic coast with the use of wireless telegraph it is found that considerable time is saved in the work of the marine and fisheries steamers.

The Kestrel's work would also be greatly aided with wireless telegraphy in use. For instance, if poachers were reported at work on the northern British Columbia harbor banks when one of the coasting steamers went north a wireless message to the Kestrel would bring the fishery cruiser to the scene.

Free, for Catarrh, just to prove merit, a trial size box of Dr. Shoon's Catarrh Remedy. Let me send it now. It is a snow-white, creamy, healing, antiseptic balm. Containing such healing ingredients as Oil Eucalyptus, Thymol, Menthol, etc. It gives instant and lasting relief to catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoon, Racine, Wis., U.S.A. Price 50 cents. Sold by Cyrus H. Bowes.

DENIES GOVERNMENT BROKE ITS CONTRACTS

Superintendent of Wireless Telegraphs Says Courts Are Open to Marconi

Discussing the statement made by Capt. Yardley, the representative of the Marconi Wireless Telegraph Company, that the Canadian government had broken its contracts with the Marconi company and had bought apparatus in the United States similar to the Marconi apparatus, Cecil Dourlie, superintendent of wireless telegraphs for the Dominion government, said last night that the courts were open to the Marconi company if they believed this to be the case. Mr. Dourlie said further that the government had not broken any contract made with the Marconi company, had infringed none of the Marconi patents and had not bought Marconi apparatus. As to the similarity, all wireless telegraph apparatus were much the same. That bought by the Canadian government was the Shoemaker apparatus, manufactured by the Shoemaker Company of New York, which has sold its apparatus to the United States navy and army and to many merchant steamship companies.

Mr. Dourlie said that although the stations to be placed in British Columbia would be the first of the Shoemaker stations in Canada this system of wireless telegraphs was used "created" in the United States, having been shown to be superior to other systems after an exhaustive series of tests. The Canadian government had investigated the system thoroughly and only after the most thorough tests had decided to adopt it. The apparatus of each was more or less the same, the difference being in the necessary details. The Marconi company had no contract with the Canadian government for the stations on the Pacific coast. Mr. Dourlie added, and if the representative of the company thought so, he was in error. The contracts made with the Marconi company by the Canadian government applied only to the stations established on the Atlantic coast.

Mr. Dourlie yesterday investigated several sites for the Victoria station of the government system, and has selected three from which he will make a final selection for the main British Columbia station, which is to be established here. At Vancouver the station will be at Point Grey, and the station to be placed at Cape Lazo will communicate with this station. It is the intention ultimately to establish others, in fact to build a string of stations on the coast to Prince Rupert. For the present steamers in the northern British Columbia and Skagway service will communicate with the Cape Lazo station, which will relay messages to Vancouver and beyond. The station on the coast to Prince Rupert, in connection with the new light-house there will connect with steamers in the North Pacific and relay the messages to the Victoria station. Another station will be established in connection with the Estevan Point lighthouse to be built toward the close of this summer or early next year. Ultimately two other stations will be established on the West Coast of Vancouver Island, at Cape Cook and Triangle Island, the most northwesterly of the group of islands in the Scott archipelago off the northwest extreme of the Vancouver Island coast.

The station to be established on Triangle Island will be the highest power station on this coast, and will be able to communicate with vessels at least half way across the Pacific. It is not the intention to endeavor to send messages across the ocean, even were this possible, the government's intention being solely to establish the stations as aids to navigation. Three operators will be placed at each, and constant service given, one of the staff being always on duty. When the stations are in service it is the intention of the government to report all vessels spoken, details being furnished to the newspapers for general dissemination for the benefit of the general public.

At each station a gasoline engine, alternator, transformer and other subsidiary apparatus will be placed, and a wooden mast with three spars 151 feet high will be built, as well as an accommodation for the staff. The general rule made is that waves of 300 metres long will be sent, and it depends upon the power of the apparatus carried by the steamer seeking to communicate how far the messages can be sent and received. The average small vessel will be able to communicate from a distance of 400 to 500 miles, and liners with larger apparatus will be able to send messages from a distance of about 1,200 miles. Other vessels the Empress liners will be able to send messages from sea over three days before they reach port.

WANT MORE TIME TO MAKE THE CHANGES

Holders of Bottle Licenses Say That Extension Is Necessary

The holders of bottle licenses in the city have been placed in an awkward dilemma by the city's council decision to enforce the license regulation by-law forthwith.

While they were given a month's notice in which to place their premises in shape, they point out that this time was quite insufficient for the purpose. While several of the premises have been changed their premises so as to comply with the by-law there are others who cannot do so. These will be compelled to secure distinct and separate stores. Owing to the fact that there are no stores available, they will be unable to comply with the regulations before the day for the renewal of licenses.

However, several of them have been practically assured of an extension of time. Just how long it will be they do not as yet know, but they are hoping for at least three months.

David H. Ross in conversation with a Colonist reporter stated that it would be impossible for him to alter his present premises to conform with the by-law. It would leave both departments too cramped. He will be obliged to obtain new premises, and as yet there are none available. Leases have been signed and none of these will run out before at least three months.

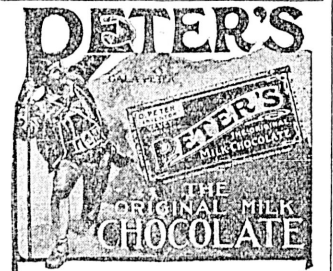

"We hope," he said, "that the commissioners will give us that much grace. The month's notice which we received was made in haste and was unadvised. Several of the dealers whose premises are large enough can separate their liquor department by a partition, but with the greater number of us this will be impossible."

The Windsor grocery premises will probably be changed to comply with the by-law. It will not be necessary for the proprietor to obtain additional space. With the exception of Fell's grocery, where there is plenty of space to make the change, the other two of the West End and Saunders will probably have to obtain additional store room. Mayor Morley stated that the Colonist that there was no intention of dealing harshly with those dealers who show a disposition to comply with the law. This majority of the retail liquor dealers are doing. Many have already carried out the necessary changes, while the others are, in nearly all cases, rushing the work.

The steamer Quito from Karatsu reached Port Townsend yesterday.

Ottawa Old Boys

Winnipeg, July 3.—Roy Bullen of the Chicago and Western Railway, is coming to arrange for the Ottawa old boys' excursion, which will be attended by about 400 ex-Ottawans from all over the west. The railroad is arranging entertainments and itineraries through the cities of St. Paul, Chicago and Toronto.

CHOICE BUILDING SITE FOR AN APARTMENT HOUSE

As a business proposition, an up-to-date Apartment House pays handsome profits. In Victoria the absence of such a house is generally remarked and at the same time regretted by the numerous Eastern newcomers. I have the exclusive sale of

FIVE CHOICE LOTS

Centrally situated, within five minutes walk of Post Office, and a like distance from Beacon Hill Park, where values are steadily increasing. The position cannot be equalled, and commands a clear view of mountains and sea. This is indeed the ideal location for a select apartment house.

Price \$7,000.00 Only

For Full Particulars apply A. W. Bridgman, 41 Government St.

A Business Chance

FOR SALE

A Beautifully Situated Country Hotel—
Splendid Fishing, Shooting and Boating

This is a good investment, and any one wishing to secure a business of this kind should not fail to get particulars. The situation is unsurpassed, with superb views of the surrounding country, and the hotel is well patronized by tourists and others. Now that Vancouver Island has become so widely known as a tourist center, the business could be very largely increased.

For further particulars apply to

AMERICANS COMPLAIN OF BOILER INSPECTION

Say Regulations, Which Local Men Live Up To, Are Too Rigid For Them

An American manufacturer, writing to a British Columbia correspondent, complains of the rigid and uncertain nature of boiler inspection in this province. He says: "In the first place, the very rigid specifications make it almost impossible to figure on your work, since the plates that we would have to get would be special from the eastern factory, and even then if your inspectors were so inclined, the boiler might be rejected after its arrival. We have investigated this matter quite thoroughly, and find out that no one seems to be able to build boilers for British Columbia requirements with any surety of being accepted, owing to failure noted, to the extremely rigid requirements of your laws, and the very strict interpretation that your inspectors put on them. It appears that everybody, even your local builders, are complaining quite bitterly about the handicap that is placed on the machinery equipment for British Columbia, and would like to know if some action could not be taken about bringing down to a normal and reasonable basis."

Charles J. V. Spratt, manager of the Victoria Machinery Depot Company, discussing the matter with a reporter for the Colonist said: "All boilers locally made or sold in British Columbia must meet the requirements of the British Columbia Inspection act and there is no favoritism shown by the inspectors; the fact is not unreasonable in the interest of public safety, and any manufacturer interested in this market can easily secure a copy for the asking, and can easily build boilers in conformity thereto."

Another manufacturer said: "Boilers made locally are made under the British Columbia Inspection act and all manufacturers know that the act must be complied with so they all build boilers according to its specifications, which are not at all unreasonable or

difficult to comply with. The test to which a foreign made boiler is put is in no wise more severe than the test of the local boiler, but as there is always a doubt as to its tensile strength its resisting power is reduced 25 per cent below its tested pressure.

"There is absolutely no complaint among local builders as to the interpretation of the act. It applies to all alike, so that no one manufacturer has any advantage under it. We have a kick coming against the inspectors. They make no distinction as to builders, but they do inspect every boiler strictly in accordance with the specifications of the act. An inspection act, strictly enforced, is the best safeguard the users of boilers can have and they should be willing to pay a little more for a good boiler unquestionably safe, than take a chance on one that may go to pieces any moment."

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Encephalitis, The Heart, or The Kidneys. These are merely symptoms of a deeper ailment, don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, not the cause. Weak Stomach nerves, the inside nerves—mean Stomach weakness, always. And the Heart and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free book. Dr. Shoop, Racine, Wis. The Restorative is sold by Cyrus H. Boyes.

Injured in Building Wreck

Chehmatt, July 2.—Ten people were hurt in the collapsing of a four story business block on Main street this afternoon. Forty-two others escaped injury. The accident was caused by the weakening of the foundations by an excavation for a new ten story building. The outer wall of the building fell over into the excavation, where forty laborers were eating their mid-day meal. In the wrecked building were a dozen other men, some of whom were shot out through the windows and wreckage into the street. The falling timbers, however, formed a refuge which protected the men. Some of them were dangerously hurt.

Southend Pier, which holds the record for length, measures over a mile and a quarter. Southport Pier is nearly a mile long.
